AHCA Releases Statewide Medicaid Managed Care Re-Procurement Data Book

TALLAHASSEE, Fla. – Today, the Agency for Health Care Administration (Agency) announced the release of the Statewide Medicaid Managed Care (SMMC) data book in preparation for the program's competitive re-procurement. The data book provides relevant background information that prospective plans will find useful in the development of their response to the Invitation to Negotiate (ITN), which the Agency will release in the summer of 2017.

Agency Secretary Justin M. Senior said, "Releasing the data book is an important step in the re-procurement process of the SMMC program. We hope this will provide prospective plans with valuable information as they prepare their responses to the ITN. The Agency looks forward to working with the plans to provide the best possible health care for Medicaid recipients as we move through the first re-procurement of the program."

The Agency is hosting a public meeting to address questions about the Statewide Medicaid Managed Care data book released on March 30, 2017.
