Secretary Dudek Supports American Pharmacists Month

TALLAHASSEE—“The Agency for Health Care Administration is proud to celebrate American Pharmacists Month by honoring the many roles that pharmacists play in the health care system, including working at the Agency. During this time we recognize pharmacists for providing the safe, affordable and beneficial care services and products that Floridians deserve. We support the American Pharmacy Association’s goal of educating the public, policymakers, and other health care professionals about the role pharmacists play in the reduction of overall health care costs and the safe and effective management of medications.”

More information about American Pharmacists Month can be found by visiting http://www.pharmacist.com/american-pharmacists-month-2012.
