Elizabeth Dudek, Secretary
Agency for Health Care Administration
2727 Mahan Drive
Tallahassee, Florida 32308

Dear Secretary Dudek:

In accordance with Internal Auditing Standards, attached is the twelve month status report from the Bureau of Support Services in response to our report #12-05 Enterprise Wide Audit of Contract Monitoring, published on March 15, 2012.

Our follow-up review determined that corrective action is still in progress for two of our four recommendations. The Bureau has drafted an Agency Agreement policy which is currently being routed for approval. The Bureau is also in the process of reviewing its policies and procedures to ensure policies are current and forms are updated. A detailed description of the issues, recommendations, and management’s response can be found in the attached table. We will schedule another follow-up review in six months to assess the efforts taken by the Bureau to correct all open issues.

If you have any questions regarding this status report, please let me know.

Respectfully Submitted,

<td>The Agency specific Contract Manager Training needs to be expanded to detail all aspects of contract management.</td>
<td>Agency contract managers should be properly trained on the topics that are referenced and specified throughout the Procurement Policy and Contract Manager Desk Reference. This includes the Agency procurement and contract development process, roles and responsibilities of contract managers and contract administration, contract monitoring, deliverables, invoice payment, contract requirements, contract monitoring, closeout procedures, etc.</td>
<td>We recommend that Contract Administration continue to develop and present mini-trainings periodically that will further address the basic principles and fundamentals of Agency contract management. Some topics to focus on include the day-to-day management of contracts, contract monitoring, contract requirements, closeout procedures, fiscal monitoring, and invoicing (specifically the review of invoices and supporting documentation prior to payment). We also recommend that Contract Administration consider recording training sessions and posting to SharePoint for future review by contract managers. Recording specific training will help limit the need for face-to-face training.</td>
<td>Status as of September 20, 2012 Complete</td>
<td>Status as of March 15, 2012 Contract Administration will continue to hold topic specific mini-trainings throughout the year. Anticipated Completion Date The first training session specific to day-to-day contract management, contract monitoring, etc. will be held February 28, 2012.</td>

| 2   | Contract closeout procedures are not specifically defined and documented. | The Contract Manager Desk Reference states the responsibilities of contract managers, but does not specifically identify contract closeout procedures other than completing an evaluation of the vendor’s performance. Providing Agency contract managers with specific contract closeout procedures will help ensure that the contract is properly closed and that no objectives and deliverables were missed prior to closing out the contract. Contract closeout procedures will also assist with ensuring the completeness of the Agency contract file. | We recommend the Contract Administration unit update the contract closeout section of the Contract Manager Desk Reference. This section should include additional guidance to contract managers for ensuring proper closeout of Agency contracts. | *Status as of September 20, 2012*

| 3   | The Agency’s Agency Agreements Policy (Policy/Procedure #4028) should be updated to include procedures for the development, use, and monitoring of such agreements. | The current Agency Agreements Policy establishes procedures for routing and ensuring all agreements are captured in one central repository, located in the Procurement office. This policy does not include requirements for the development and monitoring of such agreements. | We recommend that the Procurement Office, in concert with General Counsel (to ensure compliance with Section 112.24, F.S. and Section 215.971, F.S.) develop policies and procedures for Agency agreements to address these issues and to help ensure consistency in the development, execution, and monitoring of Agency agreements. | Status as of September 20, 2012  
Contract Administration is currently revising the Agency Agreement procedures to match the Agency’s Contract procedures. This process is where Contract Administration will handle the creation, routing, and execution of Agency Agreements, and also conduct annual file reviews to ensure all required information is current and correct in the Agency Agreement files. | Status Update as of March 15, 2012  
The Procurement Office has completed a revised draft Agency Agreement policy and it is currently being routed for approval through the Agency. | 06/30/2013 |
