December 24, 2014

Elizabeth Dudek, Secretary  
Agency for Health Care Administration  
2727 Mahan Drive  
Tallahassee, Florida 32308  

Dear Secretary Dudek:

In accordance with Internal Auditing Standards, attached is the eighteen-month status report from the Bureau of Financial Services and the Division of Health Quality Assurance in response to our report #12-04, Agency Accounts Receivable Process Audit published on June 25, 2013.

Management has indicated corrective action has been fully taken for one of the outstanding issues. A detailed description of all issues, recommendations, and management's responses can be found in the attached table. We will schedule another follow-up review in six months to assess the Bureau of Financial Services and the Division of Health Quality Assurance progress towards correcting all remaining open issues.

If you have any questions regarding this status report, please let me know.

Sincerely,

[Signature]

Eric W. Miller  
Inspector General

EWM/mbs  
Enclosure

<tr>
<td>2</td>
<td>MAR Collection Efforts Are Impeded by Manual Monitoring of Receivables for Payment Activity</td>
<td>We also recommend the new Accounts Receivable System include a means of identifying late payment dates and automatically generating notices if a payment has not been received by set deadlines. The Bureau of Financial Services (Bureau) plans to have a draft Request For Qualification (RFQ) by late September or early October 2014. Anticipated date of completion: June 30, 2015</td>
<td></td>
<td>The Bureau executed a Direct Order through MyFloridaMarketPlace on July 1, 2014 for consultant services to document and fix existing errors/breaks/issues for all systems and applications used by the Bureau. An Accounts Receivable Team was organized to develop a list of functionalities for a new system. In addition, the Agency included a funding request in its Legislative Budget Request for FY 2015-2016 for the development and implementation of an enterprise system. Progress for fully addressing the recommendation is contingent on the Legislature approving funds for this project. If the Legislature approves funding, it is anticipated the project will take at least three years to complete.</td>
<td>June 30, 2018</td>

<td>8</td>
<td>The Coordination of Restitution Cases Could be Improved between MFCU and F&amp;A</td>
<td>To clarify the roles and responsibilities between Medicaid Fraud Control Unit (MFCU) and Bureau, we recommend that the current Memorandum of Understanding (MOU) be revised specifying: (1) the frequency and documentation for performing periodic reconciliations for open case balances should be performed and documented, and (2) clarification of responsibilities for monitoring delinquent cases, contacting probation officers in cases of delinquent payment by probationers, and referral to a collections agency for non-payment.</td>
<td>Partially Completed</td>
<td>Completed</td>
<td>N/A</td>
</tr>
</tbody>
</table>

Auditor's note: This reconciliation was the first performed. Our next follow-up will request evidence that this is a routine practice.

During a meeting with the Office of Inspector General and MFCU, the Bureau submitted these recommendations: (1) for a defendant's probationary terms, restitution is included in the terms of probation and probation officers work with the Agency to establish a repayment schedule/plan; (2) a case information sheet be submitted for new case referrals/plan; (2) a case information sheet be submitted for new case referrals/plan; and (3) for collections, provide the defendant's telephone number, last known address, and probation officer name.

In the course of follow-up telephone conversations, it was determined that reconciliations would be completed each month on all payments received.

Auditor's note: The most recent MOU was signed March 5, 2013. It addressed our concerns.
