Regulation Definition

Interpretive Guideline

400.462 Definitions.-As used in this part, the term:

(1) "Administrator" means a direct employee, as defined in subsection (9), who is a licensed physician, physician assistant, or registered nurse licensed to practice in this state or an individual having at least 1 year of supervisory or administrative experience in home health care or in a facility licensed under chapter 395, under part II of this chapter, or under part I of chapter 429.

(2) "Admission" means a decision by the home health agency, during or after an evaluation visit to the patient's home, that there is reasonable expectation that the patient's medical, nursing, and social needs for skilled care can be adequately met by the agency in the patient's place of residence.

Admission includes completion of an agreement with the patient or the patient's legal representative to provide home health services as required in s. 400.487(1).

Title Accreditation

Type Rule

400.471(2)(g) F.S.

Regulation Definition

(g) In the case of an application for initial licensure, an application for a change of ownership, or an application for the addition of skilled care services, documentation of accreditation, or an application for accreditation, from an accrediting organization that is recognized by the agency as having standards comparable to those required by this part and part II of chapter 408. A home health agency that does not provide skilled care is exempt from this paragraph. Notwithstanding s. 408.806, the applicant must provide proof of accreditation that is not conditional or provisional and a

Interpretive Guideline

This applies to applications for new licenses (initial and change of ownership) received July 1, 2008 or later. The HHA must maintain accreditation in order to maintain licensure. This requirement is checked by the AHCA Home Care Unit when reviewing applications for new licensure and the later renewal of new licenses that were issued after July 1, 2008. If the surveyor found an accredited HHA that is no longer accredited that began providing skilled care and had not been provide skilled care, check with the AHCA Home Care Unit. If the HHA applied for its renewal or change of ownership license July 1, 2008 or later and failed to maintain accreditation, this standard would be cited and legal action initiated by the AHCA Home Care Unit to revoke or deny the license.

Type Rule

400.474(8)(d); 59A-8.008(4)

Regulation Definition

59A-8.008(4), FAC

The agency's application for licensure shall state explicitly what services will be provided directly by agency employees or by contracted personnel, if services are provided by contract. The home health agency shall provide at least one service directly to patients.

400.474, F.S.

(8) The agency may not issue a renewal license for a home health agency in any county having at least one licensed home health agency and that has more than one home health agency per 5,000 persons, as indicated by the most recent population estimates published by the Legislature's Office of Economic

Interpretive Guideline

400.474, F.S. Administrative penalties.--

(1) The agency may deny, revoke, and suspend a license and impose an administrative fine in the manner provided in chapter 120.

The HHA must meet this definition of a home health agency. It must have provided home health services directly to at least one patient for a period of at least 60 days. When the HHA office is not open and the surveyor cannot reach anyone through the HHAs phone numbers provided to AHCA, check with the building management company, if possible, to see if the office is still rented. If the office has been closed and is no longer rented, cite this standard, H 104, as not met.

When the surveyor is able to reach the administrator, alternate administrator, director of nursing but no one will come in, cite H 110. When the office is open but the HHA has not had any patients since licensing or since the last periodic survey and it has been 60 days or more, cite H 104.

and Demographic Research, if the applicant or any controlling interest has been administratively sanctioned by the agency during the 2 years prior to the submission of the licensure renewal application for one or more of the following acts:
(d) Failing to provide at least one service directly to a patient for a period of 60 days;

When the HHA is only staffing with contract employees and/or is not providing any services with directly employed staff, cite H 310.

Check to see if the Home Care Unit has an application pending to renew the license. If so, the Unit can prepare a Notice of Intent to Deny. If no pending renewal application, the Home Care Unit will prepare a Recommendation for Sanction and submit it to the AHCA General Counsel's office for revocation or fine per 400.474(1)(2)(e), F.S.

ST - H0105 - Unlicensed Activity

Title Unlicensed Activity

Type Rule

400.464(3) & (4)(b-f) FS

Regulation Definition

400.464

(3) A home infusion therapy provider must be licensed as a home health agency or nurse registry.

(4)(b) The operation or maintenance of an unlicensed home health agency or the performance of any home health services in violation of this part is declared a nuisance, inimical to the public health, welfare, and safety. The agency or any state attorney may, in addition to other remedies provided in this part, bring an action for an injunction to restrain such violation, or to enjoin the future operation or maintenance of the home health agency or the provision of home health services in violation of this part or part II of chapter 408, until compliance with this part or the rules adopted under this part has been demonstrated to the satisfaction of the agency.

(c) A person who violates paragraph (a) is subject to an injunctive proceeding under s. 408.816. A violation of paragraph (a) or s. 408.812 is a deceptive and unfair trade practice and constitutes a violation of the Florida Deceptive and Unfair Trade Practices Act under part II of chapter 501.

(d) A person who violates the provisions of paragraph (a)

Interpretive Guideline

In addition to use with complaints of unlicensed activity, this would be cited on an initial survey visit if the applicant was advertising, offering and/or providing services without being licensed yet. This standard also applies if an entity was formerly licensed and let their license expire without renewing the license and was still operating.

A notice of unlicensed activity requiring activity to cease is to be delivered by the surveyor, a process server, or mailed by the field office.

Refer to Unlicensed Activity Protocol for further instructions.

Refer to CORE Tag Z827 for unlicensed activity.

Any person who commits a second or subsequent violation commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. Each day of continuing violation constitutes a separate offense.

(e) Any person who owns, operates, or maintains an unlicensed home health agency and who, after receiving notification from the agency, fails to cease operation and apply for a license under this part commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Each day of continued operation is a separate offense.

(f) A home health agency that fails to cease operation after agency notification may be fined in accordance with s. 408.812.

ST - H0106 - Satellite

Title Satellite

Type Rule

59A-8.003(5-6 & 8), F.A.C.

Regulation Definition

(5) A licensed home health agency may operate a satellite office. A satellite office must be located in the same geographic service area as the agency's main office and share administration, fiscal management, supervision, and service provision with the main office; it is not separately licensed. Supplies and records can be stored at a satellite office and phone business can be conducted the same as in the main office. The administrator at the main office is responsible for the staffing, patients, and operation of any satellite office. Signs and advertisements can notify the public of the satellite office location. If the agency wants to open an office outside

Interpretive Guideline

The location of the satellite office should appear on the home health agency's license and should be reported on the renewal or initial application form. A satellite office means a secondary office established in the same county as the main office and operating under the auspices of the main office [59A-8.002(27)]. Contact the AHCA Home Care Unit if there are questions about the satellite location.

If the agency license copy does not have the satellite office or a correct address for the satellite location, the surveyor should cite the agency under this tag.

See HZ806 for time frame for reporting change and fine in 59A-35.040, F.A.C. The AHCA Home Care Unit will prepare and send the notice of intent to impose fine.

of the geographic service area where the main office is located, the office must be separately licensed.

(6) A home health agency that operates a satellite office must:

- (a) Ensure coverage of the professional staff which takes into account the projected number of clients to be served at the satellite office;
- (b) Coordinate care and services by staff;
- (c) Ensure supervision of the staff and provision of services in the event of staff absenteeism;
- (d) Maintain a system of communication and integration of services between the main office and the satellite office;
- (e) Provide access to patient records at the satellite office;
- (f) Monitor the daily activities (clinical and administrative) and the management of services, as well as personnel and administrative issues at the satellite office;
- (g) Ensure periodic onsite visits to each satellite office by the home health agency's administrator;
- (h) Make the satellite office's hours of operation available to the public if different than the hours of operation maintained by the main office.

(8) If a change of address is to occur, or if a home health agency intends to change the counties served within the geographic service area, or open or close a satellite office or drop-off site, the home health agency must complete and submit the Health Care Licensing Application, Home Health Agency, AHCA Form 3110-1011, April 2019 or the Health Care Licensing Online Application, Home Health Agency, AHCA Form 3110-1011OL, April 2019, incorporated by reference in subsection (1), above, within the timeframe prescribed in paragraph 59A-35.040(2)(b), F.A.C. For an address change of the main office or satellite office, the home health agency must submit to the AHCA evidence that the location is zoned for a home health agency business for the new address and evidence of legal right to occupy the property in accordance with Section 408.810(6), F.S.

ST - H0107 - Drop Off Site

Title Drop Off Site

Type Rule

59A-8.003(7), F.A.C.

Regulation Definition

(7) A licensed home health agency may operate a drop-off site in any county within the geographic service area specified on the license. A drop-off site may be used for pick-up or drop-off of supplies or records, for agency staff to use to complete paperwork or to communicate with the main office, existing or prospective agency staff, or the agency's existing patients or clients. Prospective patients or clients cannot be contacted and billing cannot be done from this location. The drop-off site is not a home health agency office, but merely a work station for direct care staff in large areas where the distance is too great for staff to drive back frequently to the home health agency office. Training of home health agency staff can be done at a drop-off site. A drop-off site shall not require a license. No other business shall be conducted at these locations, including housing of records. The agency name cannot appear at the location, unless required by law or by the rental contract, nor can the location appear on agency letterhead or in advertising.

Interpretive Guideline

The location of the drop-off site should be reported on the license application. When a drop-off site is found operating as a HHA office, this is unlicensed activity and a notice of unlicensed activity should be given to the HHA. Also cite H 105 unlicensed activity.

A Drop-off site is not an operational office. This information is obtained in the Entrance Conference Interview with the Administrator. No survey visit to this site is made unless surveyor suspects it is actually an operating office.

Note: Drop sites are to be used when distances are too great for staff to drive back frequently to the home health agency. A drop site close to the HHA office does not meet the requirement in this rule.

(9) A home health agency has the following responsibility in terms of hours of operation:

(a) The home health agency administrator and director of nursing, or their alternates, must be available to the public for any eight consecutive hours between 7:00 a.m. and 6:00 p.m., Monday through Friday of each week, excluding legal and religious holidays. Available to the public means being readily available on the premises or by telecommunications.

(b) When the administrator and the director of nursing are not on the premises during designated business hours, a staff person must be available to answer the phone and the door and must be able to contact the administrator and the director of nursing by telecommunications. This individual can be a clerical staff person.

(c) If an AHCA surveyor arrives on the premises to conduct an unannounced survey and the administrator, the director of nursing, or a person authorized to give access to patient records, are not available on the premises they, or the designated alternate, must be available on the premises within an hour of the arrival of the surveyor. A list of current patients must be provided to the surveyor within two hours of arrival if requested.

(e) Failure to be available or to respond during a survey or inspection will be grounds for denial or revocation of the agency license in accordance with Section 408.806(7), F.S.

408.806(7)

(7)(a) An applicant must demonstrate compliance with the requirements in this part, authorizing statutes, and applicable rules during an inspection pursuant to s. 408.811, as required by authorizing statutes.

(d) If a provider is not available when an inspection is attempted, the application shall be denied.

Interpretive Guideline

Facility hours of operation should be designated in the policy and procedure manual and on the application. Are the hours of operation the same as those written on the application? Are there 8 consecutive hours? Telecommunications means telephone, cell-phone or beeper. If the administrator and the director of nursing are not on the premises, ask an agency staff person to contact them to let them know that AHCA is at the facility and the survey process has started, obtain information from office personnel, and interview other professional staff present to complete as many items as possible. If the administrator and DON never appear during the survey, and you are unable to satisfactorily complete the survey, you can either cite those areas you're unable to review or you can indicate that the survey was discontinued and a determination was unable to be made.

Were time standards in (c.) met for providing surveyor access to records and list of patients?

If (a), (b), or (c) is not met, submit Recommendation for Sanction (RFS) for \$500 fine to General Counsel's office. Second time is grounds for denial or revocation of license. Contact the Licensed Home Health Programs Unit as to whether an RFS should be done - if renewal application is pending, the Unit can do the denial.

Initial applications for licensing are denied if the provider is not available when the inspection is attempted. The AHCA licensing unit will issue the Notice of Intent to Deny to the applicant.

ST - H0111 - On-Call Staff

Title On-Call Staff

Type Rule

59A-8.003(9)(d), F.A.C.

Regulation Definition

(d) The home health agency shall have written policies and procedures governing 24 hour availability to licensed professional nursing staff by active patients of the home health agency receiving skilled care. These procedures shall describe an on-call system whereby designated nursing staff will be available to directly communicate with the patient. A home health agency that does not provide skilled services shall have written policies and procedures which address the availability of a registered nurse supervisor during hours of patient service.

Interpretive Guideline

Does policy and procedures designate the availability of on-call staff?
Are skilled services provided? If so, who is the RN or RN's on call this week?
If only home health aide or homemaker and companion services are provided, is supervision by phone available during the hours of patient service?

ST - H0121 - License Number in Ads

Title License Number in Ads

Type Rule

400.464(4)(a), F.S.

Regulation Definition

(4)(a) A licensee or registrant that offers or advertises to the public any service for which licensure or registration is required under this part must include in the advertisement the license number or registration number issued to the licensee or registrant by the agency. The agency shall assess a fine of not less than \$100 to any licensee or registrant that fails to include the license or registration number when submitting the advertisement for publication, broadcast, or printing. The fine for a second or subsequent offense is \$500. The holder of a license or registration issued under this part may not advertise or indicate to the public that it holds a home health agency or nurse registry license or registration other than the one it has

Interpretive Guideline

As time permits as part of off-site preparation, check area newspaper advertisements, phonebook or website to determine if this criterion is met. On site during the survey, check advertising materials such as brochures at the agency. Newspaper advertising should include the license number. This needs to be cited if the license number is not in the advertising.

Note: This applies only when services are offered. The license number is not required on business cards or stationery where no services are listed. It also doesn't apply to job announcements. Notify the AHCA Home Care Unit and provide copy of ad with no license number. The Home Care Unit will issue the notice of intent to impose to the fine.

ST - H0122 - Located in ALF

Title Located in ALF

Type Rule

59A-8.008(6), F.A.C.

Regulation Definition

(6) If a home health agency occupies space within a licensed assisted living facility, and this space is not licensed as a home health agency, the home health agency must notify AHCA, in writing, whether the space is a satellite office or a drop-off site, as defined in Rule 59A-8.002, F.A.C.

Interpretive Guideline

HHA can lease space from an ALF.

Determine if the space meets the definition of an office. Was the space declared as a satellite, a drop-off site, or is it separately licensed as a HHA? Use of such space would have to meet one of these definitions. If the space is designated as a drop-off site, make sure there is no active patient records stored and there is no business being conducted from this location, such as advertising or patients dropping in.

See H0107 re drop off sites.

ST - H0124 - Geographic Service Area

Title Geographic Service Area

Type Rule

59A-8.007(1-2), F.A.C.

Regulation Definition

- (1) An applicant for initial licensure, change of ownership, or the addition of skilled care services must apply for one or more counties within a geographic service area in which the main office is located on the Health Care Licensing Application, Home Health Agency, AHCA Form 3110-1011, April 2019, incorporated by reference in subsection 59A-8.003(1), F.A.C., pursuant to Sections 408.032(5) and 400.497(9), F.S.
- (2) In any request for expansion of the geographic service area, the home health agency's previous history of survey results and administrative actions including fines, suspensions, revocations or injunctions will be reviewed to establish the home health agency's ability to provide quality services within the requested area. In addition, the application for an expanded geographic service area must include a plan for:
- (a) Coverage of the professional staff which takes into account the projected number of clients in the requested geographic service area; and,
 - (b) Supervision of the staff in the requested geographic service area.

Interpretive Guideline

The approved geographic service area is listed on the official license.

Ask the administrator what is the geographic service area of the facility.

When reviewing the sample of patient clinical records, check the patient's home address to determine if the address is located within the geographic area shown on the HHA license.

Staffing services can be provided outside of the counties on the license. Staffing is not providing direct services to patients. It is providing personnel to other facilities or business entities, such as nursing homes or school clinics, on a temporary basis. The personnel are supervised by the other facility or business entity.

Examples of staffing services:

Example 1: A Nursing Home needs a temporary CNA because a CNA is out on sick leave. Your HHA sends a CNA to work for the nursing home.

Example 2: A HHA lost 2 HH aides last week, one on maternity leave, the other to another job. The HHA requests staffing services from another HHA to get 2 HH aides to come work for its HHA temporarily until it fills its vacancy & the aide comes back from leave. The receiving HHA then supervises the temporary aides & assigns them to provide services. The temporary aides report to the receiving HHA, providing the receiving HHA with records of work provided following the receiving HHA's procedures. These aides are temporary staff for that HHA.

Request a listing of the personnel that are providing staffing services and the hospital, nursing home, school, HHA or other entity where they are currently assigned.

Sample personnel records from the list to determine when each person was placed. Ask to see the contract with the other facility or entity for these personnel. Is the contract between the 2 parties and cover the temporary personnel that have been placed? Are temporary personnel being placed as shown in the examples? Or, is this an on-going staffing arrangement? If an on-going staffing arrangement is found, see H 305.

(3) The counties listed on the home health agency license should reflect counties in which the home health agency expects to provide services. If an agency refuses to serve patients or clients residing in a specific county and that county is listed on the agency's license, AHCA shall remove that county from the agency's license. Refusal to provide services to a patient or client solely based on their residence in a specific county must be verified by AHCA prior to removing the county from the license. A home health agency shall not provide services to patients or clients residing in a county that is not listed on the agency's license.

400.464

(2) If the licensed home health agency operates related offices, each related office outside the health service planning district where the main office is located must be separately licensed. The counties where the related offices are operating within the health service planning district must be specified on the license in the main office.

(7) A licensed home health agency that seeks to relocate to a different geographic service area not listed on its license must submit an initial application for a home health agency license for the new location.

Interpretive Guideline

Is there evidence from complaints, or other sources, that the HHA has refused to provide services to patients in any part of the service area listed on the license? Check the roster of current patients, and the list of patient records discharged/closed within the last 12 months, to determine whether patients are served in all counties shown on the license. If you find an agency has refused to provide services within a certain county (or counties) cite this tag and inform AHCA licensing unit which county (or counties) should be removed from the agency's license.

Title Training on HIV & AIDS

Type Rule

381.0035(1-2), F.S.

Regulation Definition

(1) The Department of Health shall require all employees and clients of facilities licensed under chapter 393, chapter 394, or chapter 397 and employees of facilities licensed under chapter 395, part II, part III, or part IV of chapter 400, or part I of chapter 429 to complete a one-time educational course on the modes of transmission, infection control procedures, clinical management, and prevention of human immunodeficiency virus and acquired immune deficiency syndrome with an emphasis on appropriate behavior and attitude change. Such instruction shall include information on current Florida law and its impact on testing, confidentiality of test results, and treatment of patients and any protocols and procedures applicable to human immunodeficiency counseling and testing, reporting, the offering of HIV testing to pregnant women, and partner notification issues pursuant to ss. 381.004 and 384.25. An employee who has completed the educational course required in this subsection is not required to repeat the course upon changing employment to a different facility licensed under chapter 393, chapter 394, chapter 395, chapter 397, part II, part III, or part IV of chapter 400, or part I of chapter 429.

(2) Facilities licensed under chapter 393, chapter 394, chapter 395, or chapter 397, part II, part III, or part IV of chapter 400, or part I of chapter 429 shall maintain a record of employees and dates of attendance at human immunodeficiency virus and acquired immune deficiency syndrome educational courses.

Interpretive Guideline

Review personnel policies to determine if the requirements listed in this standard are included.

Sample personnel files of new home health aides, CNAs, homemakers and companions to make sure that all have taken a course on HIV and AIDS. Existing staff must have taken a course (it is no longer biennial since 2008 Legislature changed the 381.0035 law). The specified length of the course has been removed from 381.0035, F.S.

Regulation Definition

(1) A home health agency must provide the following staff training:

(a) Upon beginning employment with the agency, each employee must receive basic written information about interacting with participants who have Alzheimer's disease or dementia-related disorders.

Interpretive Guideline

Review written information for required content. Use of informational sheet developed by Florida Health Care Association with the assistance of the Alzheimer's Resource Center of Tallahassee, Florida (posted at the AHCA web site, under "Licensure & Certification," "home health agency") will satisfy this requirement. If other information is disseminated, review for a basic overview of the disease, its progression (especially late stages) and tips on interaction including but not limited to:

- persons with Alzheimer's disease often retain social skills quite far into the illness
- attempt to determine precipitating factors
- identify self and others present
- use the person's name
- get close - touch if appropriate
- speak slowly and clearly
- use simple words & phrases
- do not expect an answer
- do not ask questions requiring memory or reasoning
- do not talk about or over the person
- repeat the same message often and/or write it down
- communicate by "being with"
- foster comfort with music (singing) and tactile objects
- read to the patient

Review personnel files and/or interview staff to verify receipt of required written information.

Verify information has been provided to employees upon beginning employment.

Per Department of Elder Affairs (DOEA), volunteers nor contracted persons are considered employees.

A licensed home health agency whose unduplicated census during the most recent calendar year was comprised of at least 90 percent of individuals aged 21 years or younger at the date of admission is exempt from this requirement.

Regulation Definition

(1) ADMINISTRATOR.-

(a) An administrator may manage only one home health agency, except that an administrator may manage up to five home health agencies if all five home health agencies have identical controlling interests as defined in s. 408.803 and are located within one agency geographic service area or within an immediately contiguous county. If the home health agency is licensed under this chapter and is part of a retirement community that provides multiple levels of care, an employee of the retirement community may administer the home health agency and up to a maximum of four entities licensed under this chapter or chapter 429 which all have identical controlling interests as defined in s. 408.803.

Interpretive Guideline

If there was a change, check to see if the current administrator is in www.FloridaHealthFinder.gov. If the name of the current administrator does not match, check with the Home Care Unit to see if an administrator change was reported. Does the administrator manage other home health agencies? How Many? (Cannot exceed 5 HHAs if the requirements in law are met:

- A. Do all of the HHAs have "identical controlling interests"? This means that all of the HHAs administered by the one administrator must have: (1) the same licensee; (2) the exact same owners (people and/or entities) with the exact same percentage of ownership; (3) the exact same board of directors (when there is a board of directors); and (4) if there is a management company, have the exact same people or entities with the exact same percentage of ownership in the management company, which manages all of the HHAs. If all of the HHAs do not have identical controlling interests, cite this standard as not met.
- B. Where are HHAs located? Same AHCA geographic area? If not, the administrator can only manage a HHA this has its licensed office located in a county that is immediately contiguous to the county in another AHCA geographic service area where the other HHA's licensed office is located (county boundaries must touch). ST - H0220 - Director of Nursing Qualified

Title Director of Nursing Qualified

Type Rule

400.476(2) F.S.

Regulation Definition

(2) DIRECTOR OF NURSING.-

(a) A director of nursing may be the director of nursing for:

1. Up to two licensed home health agencies if the agencies have identical controlling interests as defined in s. 408.803 and are located within one agency geographic service area or within an immediately contiguous county; or

2. Up to five licensed home health agencies if:

a. All of the home health agencies have identical controlling interests as defined in s. 408.803;

b. All of the home health agencies are located within one agency geographic service area or within an immediately contiguous county; and

c. Each home health agency has a registered nurse who meets the qualifications of a director of nursing and who has a written delegation from the director of nursing to serve as the director of nursing for that home health agency when the director of nursing is not present.

If a home health agency licensed under this chapter is part of a retirement community that provides multiple levels of care, an employee of the retirement community may serve as the director of nursing of the home health agency and up to a maximum of four entities, other than home health agencies,

Interpretive Guideline

The Home Care Unit checks the Director of Nursing qualifications when reviewing licensure applications.

A Director of Nursing is not required for home health agencies that are not Medicare or Medicaid certified, or do not provide any skilled services, such as those that provide only home health aide & homemaker companion services, or only therapy services.

A home health agency that provides home health aides services only but not nursing services is not required to have a Director of Nursing but they are required to have a registered nurse available per section 400.487(3), F.S. and 59A-8.0095 (3)(b), F.A.C. (See H 231 & H 240)

If there is a change in the director of nursing since the license was last issued, the surveyor should check for compliance with the standard.

Documentation of qualification for this position should consist of current state registered nursing license, job description, resume and/or employment application that includes evidence of one year of supervision as an RN, and a W-4 or Florida W-2 form. If the DON does not meet the required qualifications then the home health agency should be cited.

licensed under this chapter or chapter 429 which all have identical controlling interests as defined in s. 408.803.

(b) A home health agency that provides skilled nursing care may not operate for more than 30 calendar days without a director of nursing. A home health agency that provides skilled nursing care and the director of nursing of a home health agency must notify the agency within 10 business days after termination of the services of the director of nursing for the home health agency. A home health agency that provides skilled nursing care must notify the agency of the identity and qualifications of the new director of nursing within 10 days after the new director is hired. If a home health agency that provides skilled nursing care operates for more than 30 calendar days without a director of nursing, the home health agency commits a class II deficiency. In addition to the fine for a class II deficiency, the agency may issue a moratorium in accordance with s. 408.814 or revoke the license. The agency shall fine a home health agency that fails to notify the agency as required in this paragraph \$1,000 for the first violation and \$2,000 for a repeat violation. The agency may not take administrative action against a home health agency if the director of nursing fails to notify the department upon termination of services as the director of nursing for the home health agency.

1. Meet the criteria as defined in Section 400.462(10), F.S.;
2. Supervise or manage, directly or through qualified subordinates, all personnel who provide direct patient care;
3. Ensure that the professional standards of community nursing practice are maintained by all nurses providing care; and,
4. Maintain and adhere to agency procedure and patient care policy manuals.

(b) The director of nursing, the administrator, or alternate administrator shall establish policies and procedures on biomedical waste for home health agencies providing nursing and physical therapy services. The Department of Health website has information on biomedical waste handling and the requirements at www.doh.state.fl.us/Environment/Community/biomedical.

(c) The director of nursing shall:

2. Employ and evaluate nursing personnel;
3. Coordinate patient care services; and,
4. Set or adopt policies for, and keep records of criteria for admission to service, case assignments and case management.

(d) Pursuant to Section 400.497(5)(a), F.S., the director of nursing shall establish a process to verify that skilled nursing and personal care services were provided. When requested by an AHCA employee, the director of nursing shall provide a certified report that lists the home health services provided by a specified direct service staff person or contracted staff person for a specified time period as permitted in Section 400.497(5)(b), F.S. A certified report shall be in the form of a written or typed document or computer printout and signed by

- a. The Home Health Aide Competency Test, form number AHCA 3110-1007, February 2001, has two parts: a practical part in which competency is determined through observation of the performance of tasks and a written part with questions to answer. Successful passage of the test means the accurate performance of all 14 tasks on the practical part plus correctly answering 90 of the 104 questions on the written part.
 - b. Successful passage of the competency test alone does not permit a home health aide to assist with self-administration of medication as described in Section 400.488, F.S. Any home health aide that will assist patients with self-administration of medications must have completed two hours of training on assistance with self-administered medication as required in subparagraph 59A-8.0095(5)(d)15., F.A.C.
2. Any staff person of a home health agency may administer the written portion of the test, but the practical competency test must be administered and evaluated by a registered nurse or a licensed practical nurse under the supervision of a registered nurse. The staff person, registered nurse, or licensed practical nurse may also be responsible for grading the written test.
 3. When a home health aide completes the competency test through the employing agency and wishes to be employed at another agency, the home health agency shall furnish documentation of successful passage of the test to the requesting agency pursuant to section 400.497(1), F.S. Documentation of successful passage may be provided in a format established by the home health agency, except as prohibited in paragraphs 59A-8.0095(5)(f)-(h), F.A.C., that specifies limitations on the manner in which a home health agency may describe home health aide training. Regulation Definition

400.488 Assistance with self-administration of medication.-

(1) For purposes of this section, the term:

(a) "Informed consent" means advising the patient, or the patient's surrogate, guardian, or attorney in fact, that the patient may be receiving assistance with self-administration of medication from an unlicensed person.

(b) "Unlicensed person" means an individual not currently licensed to practice nursing or medicine who is employed by or under contract to a home health agency and who has received training with respect to assisting with the self-administration of medication as provided by agency rule.

(2) Patients who are capable of self-administering their own medications without assistance shall be encouraged and allowed to do so. However, an unlicensed person may, consistent with a dispensed prescription's label or the package directions of an over-the-counter medication, assist a patient whose condition is medically stable with the self-administration of routine, regularly scheduled medications that are intended to be self-administered. Assistance with self-medication by an unlicensed person may occur only upon a documented request by, and the written informed consent of, a patient or the patient's surrogate, guardian, or attorney in

Interpretive Guideline

When reviewing sampled patient files, look for a written consent in the patient's record for those patients that are getting assistance for medication as permitted in the law. The written consent can be signed by the patient's health care surrogate, guardian or attorney. "Unlicensed person", in this context, is defined as a home health aide or CNA who has received training as described in H-0242, item #16.

Home health aides and CNAs assisting with self-administered medication, pursuant to Section 400.488, F.S., must receive a minimum of 2 hours of training (which can be part of the 40 hour home health training) prior to assuming this responsibility. Training must cover state law and rule requirements with respect to the assistance with self-administration of medications in the home, procedures for assisting the patient with self-administration of medication, common medications, recognition of side effects and adverse reactions and procedures to follow when patients appear to be experiencing side effects and adverse reactions. Training must include verification that each CNA and home health aide can read the prescription label and any instructions. Individuals who cannot read must not be permitted to assist with prescription medications. Other courses taken in fulfillment of this requirement must be documented and maintained in the home health aide's and the CNA's personnel file.

Interpretive Guideline

Does the HHA permit any of its HH aides to assist with self-administration of medications? If so, do their personnel files show evidence of 2 hours of training that meets the requirements of 59A-8.0095(5)(d)15?

Note: The training can be classroom training conducted by the HHA or the Associated Home Health Industries of Florida video training on this topic or other training that meets the requirements in this standard.

1. Another home health agency with which it has formal or informal patient-referral transactions or arrangements; or
2. A health services pool with which it has formal or informal patient-referral transactions or arrangements, unless the home health agency has activated its comprehensive emergency management plan in accordance with s. 400.492.

This paragraph does not apply to a Medicare-certified home health agency that provides fair market value remuneration for staffing services to a non-Medicare-certified home health agency that is part of a continuing care facility licensed under chapter 651 for providing services to its own residents if each resident receiving home health services pursuant to this arrangement attests in writing that he or she made a decision without influence from staff of the facility to select, from a list of Medicare-certified home health agencies provided by the facility, that Medicare-certified home health agency to provide the services.

Interpretive Guideline

This standard pertains to "formal or informal patient-referral transactions or arrangements" that a HHA may have with:

- (1) another HHA -- such as a non-certified HHA that provides Medicare patient referrals to a certified HHA if the HHA will use the non-certified HHA's staff.
- (2) a health care services pool - a HHA should not be getting patients from a health care services pool
Review contracts with other HHAs and health care services pools. Do the contracts agree to use the HHA or pool's staff in exchange for referrals?

This standard will not apply to a Medicare-certified HHA that provides fair market value remuneration for staffing services to a non-Medicare-certified HHA that is part of a continuing care facility licensed under Chapter 651, F.S. for providing services to its own residents -- if each resident receiving home health services attests in writing that he or she made a decision without influence from staff of the facility to select, from a list of Medicare-certified home health agencies provided by the facility, that Medicare-certified HHA to provide this service.

A continuing care facility licensed under Chapter 651, also known as a "continuing care retirement community," provides residence & nursing &/or personal care to residents under a continuing care contract. Such a facility or community generally contains all levels of care on the same campus- nursing home, assisted living, independent living.

Continuing care facilities can be verified at the Office of Insurance Regulation web site: - enter name and for "company type" pick "continuing care retirement community".

Title Patient Assessment

Type Rule

400.487(1), F.S.

Regulation Definition

.... A home health agency providing skilled care must make an assessment of the patient's needs within 48 hours after the start of services.

Interpretive Guideline

When reviewing patient records check to see that an assessment was made within 48 hours of the start of services for patients receiving skilled care (nursing, PT, OT, ST). The assessment for patients receiving only therapy may be done by a therapist.

This standard does not apply to home health agencies that only provide home health aide, C.N.A., homemaker and companion services.

Title Treatment Orders

Type Rule

Regulation Definition

400.487
(2) When required by the provisions of chapter 464; part I, part III, or part V of chapter 468; or chapter 486, the attending physician, physician assistant, or advanced practice registered nurse, acting within his or her respective scope of practice, shall establish treatment orders for a patient who is to receive skilled care. The treatment orders must be signed by the physician, physician assistant, or advanced practice registered nurse before a claim for payment for the skilled services is submitted by the home health agency. If the claim is submitted to a managed care organization, the treatment orders must be

Interpretive Guideline

Did the physician, APRN, or PA sign the treatment order as required by law? Was it reviewed by a physician, APRN, or PA when needed? In the records reviewed, does HHA staff follow orders? If the orders were altered, was the physician, APRN, or PA notified and did they approve? Were verbal orders put in writing by the nurse or therapist?

This standard does not apply to home health agencies that only provide home health aide, C.N.A., homemaker and companion services.

signed within the time allowed under the provider agreement. The treatment orders shall be reviewed, as frequently as the patient's illness requires, by the physician, physician assistant, or advanced practice registered nurse in consultation with the home health agency.

59A-8.0215

(2) Home health agency staff must follow the physician, physician assistant, or advanced practice registered nurse's treatment orders that are contained in the plan of care. If the orders cannot be followed and must be altered in some way, the patient's physician, physician assistant, or advanced practice registered nurse must be notified and must approve of the change. Any verbal changes are put in writing and signed and dated with the date of receipt by the nurse or therapist who talked with the physician, physician assistant, or advanced practice registered nurse's office.

ST - H0304 - Written Agreement

Title Written Agreement

Type Rule

400.487(1), F.S.; 59A-8.020(2) FAC

Regulation Definition

400.487(1)
Services provided by a home health agency must be covered by an agreement between the home health agency and the patient or the patient's legal representative specifying the home health services to be provided, the rates or charges for services paid with private funds, and the sources of payment, which may include Medicare, Medicaid, private insurance, personal funds, or a combination thereof...

59A-8.020

Interpretive Guideline

Review a sampling of patient files. Any document signed by the patient that has the three required items can be used as an agreement. Is there a copy of the signed agreement in each file?

Since state law change permits APRNs and physician assistants (PA) to sign orders, the law removes the limit to physician in the rules.

(2) At the start of services a home health agency must establish a written agreement between the agency and the patient or client or the patient's or client's legal representative, including the information described in section 400.487(1), F.S. This written agreement must be signed and dated by a representative of the home health agency and the patient or client or the patient's or client's legal representative. A copy of the agreement must be given to the patient or client and the original must be placed in the patient's or client's file.

(3) The written agreement, as specified in subsection (2) above, shall serve as the home health agency's service provision plan, pursuant to section 400.491(2), F.S., for clients who receive homemaker and companion services or home health aide services which do not require a physician, physician assistant, or advanced practice registered nurse's treatment order. The written agreement for these clients shall be maintained for one year after termination of services.

ST - H0305 - Responsibility over Contractors

Title Responsibility over Contractors

Type Rule

400.487(5);

Regulation Definition

400.487(5) When nursing services are ordered, the home health agency to which a patient has been admitted for care must provide the initial admission visit, all service evaluation visits, and the discharge visit by a direct employee. Services provided by others under contractual arrangements to a home health agency must be monitored and managed by the admitting home health agency. The admitting home health agency is fully responsible for ensuring that all care provided through its employees or contract staff is delivered in accordance with this part and applicable rules.

Interpretive Guideline

Review patient files.

Ask the Administrator or DON how the HHA monitors and manages care provided by contract agencies.

If this a home health agency that only provides home health aide/C.N.A., homemaker, companion type services, the first sentence of 400.487(5), F.S., does not apply, but the other two sentences regarding responsibility over contractors do apply. This type of home health agency is not required to have a DON, but is required to have a nurse. The nurse or the administrator should be asked how the HHA monitors and manages care provided by contract agencies.

When a HHA subcontracts with another HHA to provide some of the services to the patient, the HHA contracted with

Regulation Definition

(1) In cases of patients requiring only nursing, or in cases requiring nursing and physical, respiratory, occupational or speech therapy services, or nursing and dietetic and nutrition services, the agency shall provide case management by a licensed registered nurse directly employed by the agency.

Interpretive Guideline

Is case management listed in the job description of the director of nursing or the RN providing case management?

An LPN cannot be the case manager.

If nursing is not ordered and therapy is, the therapist will serve as the case manager.

ST - H0308 - Therapy-Only Case Management of Services

Title Therapy-Only Case Management of Services

Type Rule

Regulation Definition

(2) In cases of patients receiving only physical, speech, respiratory or occupational therapy services, or in cases of patients receiving only one or more of these therapy services and home health aide services, case management shall be provided by the licensed therapist, who is a direct employee of the agency or a contractor.

Interpretive Guideline

Determine how the HHA provides case management of patients with therapy only services (PT/ST/OT). To verify direct employment in personnel records look for IRS W-2 or 4 Forms. For contractors look for IRS Form 1099 that are issued to individuals or to groups of therapists in association with each other. (If available for interview, ask the therapist).

Interpretive Guideline

Determine how the HHA provides case management of patients receiving dietitian/nutrition services.
To verify direct employment in personnel records look for IRS W-2 or 4 Forms.
For independent contractors look for IRS Form 1099 that are issued to individuals or to groups in association with each other.

ST - H0310 - Direct Services

Title Direct Services

Type Rule

400.474(2)(e)

Regulation Definition

(2) Any of the following actions by a home health agency or its employee is grounds for disciplinary action by the agency:
(e) Failing to provide at least one service directly to a patient for a period of 60 days.

Interpretive Guideline

The HHA licensure application specifies which services will be provided directly and by contract. The surveyor should verify with the HHA which services are provided directly and which are provided by contract. Services may be provided by both employees and contractors.
There is no requirement in state law or rules that at least one service, in its entirety, must be provided directly. A service may be provided partly by direct employees and partly by contractors.

If nursing is provided, the admission, evaluation, and discharge visits must be provided by a direct employee as stated in H 305. A direct employee nurse that only does patient assessments is not providing nursing care. If the only direct employee is the RN that performs patient assessments, this is not met. Cite when the HHA is only staffing or providing services with contract employees and/or is not providing any services with directly employed staff.

(c) Knowingly providing home health services in an unlicensed assisted living facility or unlicensed adult family-care home, unless the home health agency or employee reports the unlicensed facility or home to the agency within 72 hours after providing the services.

Interpretive Guideline

Cite when a licensee was found to be providing services to clients in an unlicensed facility and did not report the facility to AHCA.

If the HHA knowingly provided services without reporting the unlicensed facility within 72 hours, a Recommendation for Sanction to the General Counsel will be done by the Home Care Unit to fine or revoke the license.

Title Scope of Services-ALF/AFCH

Type Rule

59A-8.008(5), F.A.C.

Regulation Definition

(5) A home health agency which directly contracts with a resident of an assisted living facility or adult family care home to provide home health services shall coordinate with the facility or home regarding the resident's condition and the services being provided in accordance with the policy of the facility or home and if agreed to by the resident or the resident's representative. The home health agency shall retain responsibility for the care and services it provides and it shall avoid duplication of services by not providing care the assisted living facility is obligated, by resident contract, to

Interpretive Guideline

[Cross-reference this tag with ALF 304 or ALF 700, depending on the circumstances]. Check only when the home health agency serves Adult Living Facility (ALF) or Adult Family Care Home (AFCH) patients. Determine if the ALF is classified as an Extended Congregate Care or Limited Nursing Service. If so, they are required to have a registered nurse, nursing assistants, or home health aides on staff to provide certain services. If the resident needs services from an HHA that is not covered by the ALF, the resident or his family must choose the HHA who may bill the appropriate source for payment. The HHA may not duplicate services the ALF is suppose to provide its residents and may not bill Medicare, Medicaid or private insurance for services provided under contract between the ALF and the resident. Ask the patient (or the HHA if the patient does not know) how payment for service is made. Review the contract between the ALF and resident. Cite, when duplication is suspected, if the contract states or implies that the ALF is to provide a particular nursing services that the resident is paying the HHA to provide.

ST - H0315 - Acceptance of Patients or Clients

Title Acceptance of Patients or Clients

Type Rule

59A-8.020(1) FAC;

Regulation Definition

59A-8.020(1) When a home health agency accepts a patient or client for service, there shall be a reasonable expectation that the services can be provided safely to the patient or client in his place of residence. This includes being able to communicate with the patient, or with another person designated by the patient, either through a staff person or interpreter that speaks the same language, or through technology that translates so that the services can be provided. The responsibility of the agency is also to assure that the patient or client receives services as defined in a specific plan of care, for those patients receiving care under a physician, physician assistant, or advanced practice registered nurse's treatment orders, or in a written agreement, as described in subsection (3), below, for clients receiving care without a physician, physician assistant, or advanced practice registered nurse's orders. This responsibility includes assuring the patient receives all assigned visits.

Interpretive Guideline

Review the plan of care for sampled patients to determine if the HHA is providing the appropriate services as requested by the physician, APRN or physician assistant. For patients not receiving skilled care, are services provided as specified in the written agreement followed for the services?

Cite when patients are sent staff that do not speak the same language and cannot care for the patient safely.

Failure to provide services, including missed visits or failure to provide the services as ordered, should be cited, classed and a Recommendation for Sanction for a fine per class (class I, II, III or IV per patient per 400.484 (2), F.S.) submitted to the General Counsel Office.

Agency for Health Care Administration
ASPEN: Regulation Set (RS)

Printed 11/01/2021

Page 71 of 104

Aspen State Regulation Set: H 7.08 HOME HEALTH AGENCIES

Regulation Definition

59A-8.020(4) When the agency terminates services for a patient or client needing continuing home health care, as determined by the patient's physician, physician assistant, or advanced practice registered nurse, for patients receiving care under a physician, physician assistant, or advanced practice registered nurse's treatment order, or as determined by the client or caregiver, for clients receiving care without a physician, physician assistant, or advanced practice registered nurse's treatment order, a plan must be developed and a referral made by home health agency staff to another home health agency or service provider prior to termination. The patient or client must be notified in writing of the date of termination, the reason for termination, pursuant to section 400.491, F.S., and the plan for continued services by the agency or service provider to which the patient or client has been referred, pursuant to section 400.497(8), F.S. This requirement does not apply to patients paying through personal funds or private insurance who default on their contract through non-payment. The home health agency should provide social work assistance to patients to help them determine their eligibility for assistance from government funded programs if their private funds have been depleted or will be depleted.

Interpretive Guideline

Review records of patients who have been discharged by the HHA that still need home health services. Look for evidence that the patient was informed in writing of the plan to discontinue services with the date and reason for termination.

Determine if arrangements were made for home health services to be continued by another HHA or other resources in the community.

Termination of services without arranging for services from another HHA - if client/patient is still eligible for services and this is not an issue of non-payment - is violation. If social work assistance was not offered to help the patient obtain services from any government funded programs when their private funds are being depleted, this is also a violation. The violation should be classed and a Recommendation for Sanction for fine per patient per 400.484(2), F.S. should be submitted to General Counsel Office.

health agency that demonstrates a pattern of failing to provide a service specified in the home health agency's written agreement with a patient or the patient's legal representative, or the plan of care for that patient, except as provided in s. 400.492(3). A pattern may be demonstrated by a showing of at least three incidences, regardless of the patient or service, where the home health agency did not provide a service specified in a written agreement or plan of care during a 3-month period. The agency shall impose the fine for each occurrence. The agency may also impose additional administrative fines under s. 400.484 for the direct or indirect harm to a patient, or deny, revoke, or suspend the license of the home health agency for a pattern of failing to provide a service specified in the home health agency's written agreement with a patient or the plan of care for that patient.

400.471 (8)

(f) Demonstrating a pattern of billing any payor for services not provided. A pattern may be demonstrated by a showing of at least three billings for services not provided within a 12-month period;

(g) Demonstrating a pattern of failing to provide a service specified in the home health agency's written agreement with a patient or the patient's legal representative, or the plan of care for that patient, except as provided in s. 400.492(3). A pattern may be demonstrated by a showing of at least three incidents, regardless of the patient or service, in which the home health agency did not provide a service specified in a written agreement or plan of care during a 3-month period;

The "pattern" of failing to provide a service may include failures for one patient or multiple patients. Examples:

- A failure to provide a service for Patient A and two failures to provide a service for Patient B, all within a three-month period, constitutes a "pattern" of failures
- Three failures to provide services to Patient C, four failures to provide services to Patient D, and one failure to provide services to Patient E, all within a three-month period, that also constitutes a "pattern" of failures.

If there is failure to provide services to multiple patients, that is not corrected on follow up, The Home Care Unit can request revocations or deny renewal of the license if expiration of the agency's license is within a few months.

This deficiency should not be classified because the fine is mandated without regard to the risk of harm to a patient.

This is not cited if:

1. There were only one or two times that a service was not provided or failed to be provided as ordered;
2. A reduction in service is mandated by Medicare, Medicaid, or a state program; or
3. An emergency situation beyond the control of the HHA, per 400.492(3), F.S., such as a hurricane or flood that makes roads impassable.

See H 315 and H 316 for failing to provide services.

(1) Each home health agency shall have written policies and procedures, which delineate the agency's position with respect to the state law and rules relative to advance directives. The policies shall not condition treatment or admission upon whether or not the individual has executed or waived an advance directive. In the event of conflict between the agency's policies and procedures and the patient's advance directive, provision should be made in accordance with chapter 765, F.S.

(2) The home health agency's policy shall include:

ST - H0366 - Remuneration for Referrals

Title Remuneration for Referrals

Type Rule

400.474(6)(e), F.S. 400.471(8)(h)

Regulation Definition

400.474(6) The agency may deny, revoke, or suspend the license of a home health agency and shall impose a fine of \$5,000 against a home health agency that:

(e) Gives remuneration to a case manager, discharge planner, facility-based staff member, or third-party vendor who is involved in the discharge planning process of a facility licensed under chapter 395, chapter 429, or this chapter from whom the home health agency receives referrals.

400.471(8)

(h) Giving remuneration to a case manager, discharge planner, facility-based staff member, or third-party vendor who is involved in the discharge planning process of a facility licensed under chapter 395, chapter 429, or this chapter from whom the home health agency receives referrals or gives remuneration as prohibited in s. 400.474(6)(a)

Interpretive Guideline

This applies to the following types of facilities from whom the HHA receives referrals:

Facilities licensed under chapter 395: hospitals, ambulatory surgical centers, and mobile surgical facilities.

Chapter 400: skilled nursing facilities, HHAs, nurse registries, hospices, intermediate care facilities, prescribed pediatric extended care centers, transitional living facilities, and health care services pools.

Chapter 429: assisted living facilities, adult family care homes and adult day care centers.

Any payment or other benefit provided by a HHA to a case manager, discharge planner or facility-based staff member or 3rd party vendor from whom the HHAs receives referrals, violates this unless the HHA can provide information to the surveyor that it does not.

Upon the discovery of such a violation, the surveyor should document the remuneration with a focus on: to whom it was given, what was given, when it was given, how it was given and the number of times it was given. The surveyor should also document the referrals that the HHA received from the case manager, discharge planner, facility-based staff member, or third-party vendor who is involved in the discharge-planning process of a facility. The surveyor should then ask the HHA reason why it gave the remuneration to such persons. If the HHA takes the position that the remuneration is a discount, compensation, waiver of payment, or payment practice permitted by 42 U.S.C. s.1320a-7(b) or its regulations, including 42 C.F.R. s.1001.952, or 42 U.S.C. s. 1395nn or its regulations, (i.e., the payment or other benefit is permitted under federal law or regulation), the surveyor should document all information and obtain copies of any and all relevant documents supporting the HHA's position. The surveyor should return to the Field Office with the relevant documents and consult with the Field Office to determine whether an exception exists. If it is determined that the HHA is unable to demonstrate an exception to the remuneration prohibition, the Home Care Unit is required to submit a recommendation for sanction to General Counsel's office.

(c) Provides staffing to an assisted living facility for which the home health agency does not receive fair market value remuneration.

(d) Fails to provide the agency, upon request, with copies of all contracts with assisted living facilities which were executed within 5 years before the request.

Interpretive Guideline

(13) Each home health agency is required to collect registration information for special needs patients who will need continuing care or services during a disaster or emergency, pursuant to section 252.355, F.S. This registration information shall be submitted, when collected, to the county Emergency Management office, or on a periodic basis as determined by the home health agency's county Emergency Management office.

(14) Home health agency staff shall educate patients registered with the special needs registry that special needs shelters are an option of last resort and that services may not be equal to what they have received in their homes.

252.355 Registry of persons with special needs; notice; registration program.-

(1) In order to meet the special needs of persons who would need assistance during evacuations and sheltering because of physical, mental, cognitive impairment, or sensory disabilities, the division, in coordination with each local emergency

Interpretive Guideline

Ask the HHA administrator to explain what is done by staff to collect registration information. The HHA should have contacted the local Emergency Management Agency (EMA) in each county on its license to find out what information needs to be submitted.

Ask for evidence that:

- (1) the HHA has information on what each county EMA requires for registration and
- (2) the HHA is submitting registration information - unless the county does not allow outside persons to submit and requires direct contact with special needs persons. In these instances, the HHA should have a copy of the county's instructions for special needs registration that says only the patient can submit. The HHA will still be expected to inform patients who need assistance in evacuation of the special needs registration process. Their procedures would be included in their emergency management plan.

Has the HHA included special needs registration in the emergency management plan format?

The division shall develop a brochure that provides information regarding special needs shelter registration procedures. The brochure must be easily accessible on the division's website. All appropriate agencies and community-based service providers, including aging and disability resource centers, memory disorder clinics, home health care providers, hospices, nurse registries, and home medical equipment providers, shall, and any physician licensed under chapter 458 or chapter 459 may, assist emergency management agencies by annually registering persons with special needs for special needs shelters, collecting registration information for persons with special needs as part of the program intake process, and establishing programs to educate clients about the registration process and disaster preparedness safety procedures. A client of a state-funded or federally funded service program who has a physical, mental, or cognitive impairment or sensory disability and who needs assistance in evacuating, or when in a shelter, must register as a person with special needs. ST - H0373 - Emergency Management Plan

Title Emergency Management Plan

Type Rule

400.492 FS; 59A-8.027(1-2) & (4) FAC

Regulation Definition

400.492, F.S., Provision of services during an emergency.-Each home health agency shall prepare and maintain a comprehensive emergency management plan that is consistent with the standards adopted by national or state accreditation organizations and consistent with the local special needs plan. The plan . . . shall provide for continuing home health services during an emergency that interrupts patient care or services in the patient's home. The plan shall include the means by which the home health agency will continue to provide staff to perform the same type and quantity of services to their patients who evacuate to special needs shelters that were being provided to those patients prior to evacuation. The plan shall describe how the home health agency establishes and maintains an effective response to emergencies and disasters, including: notifying staff when emergency response measures are initiated; providing for communication between staff members, county health departments, and local emergency management agencies, including a backup system; identifying resources necessary to continue essential care or services or referrals to other health care providers subject to written agreement; and prioritizing and contacting patients who need continued care or services.

Interpretive Guideline

Does the HHA have a written emergency management (EM) plan, if it is not exempt (400.497(10)(e), F.S)?

HHAs that already have plans in a previous format are not expected to re-write their plans on the revised plan format. It is not submitted for review again, even though updated. If the survey is for an initial applicant for licensure, the revised format dated March 2013 should have been used.

For existing HHAs, the plan should be updated with an inserted page or addendum for EM Plan form item II.D. 1 & 2 to include the means by which the HHA will continue to provide staff to perform the same type and quantity of services to their patients who evacuate to special needs shelters that were being provided to those patients prior to evacuation.

For initial applicants, the plan must include how the HHA will:

- (1) Notify staff (II C 1, 3&4)
- (2) Have a backup system for communication (II C 6)
- (3) Prioritize and contact patients who need continuing care (II C 5 and F 1 & 3)
- (4) Continue essential care, including care at shelters (II D 1,2 & E 3 & 4)

NOTE: SUBMITTING PLANS FOR REVIEW IS IN STANDARD H 376.

Changes in telephone numbers or key staff coordinating the HHA's emergency response must be reported.

(1) Pursuant to section 400.492, F.S., each home health agency shall prepare and maintain a written comprehensive emergency management plan, in accordance with criteria shown in the "Comprehensive Emergency Management Plan (CEMP)," AHCA Form 3110-1022, Revised March 2013, incorporated by reference (<http://www.flrules.org/Gateway/reference.asp?No=Ref-02767>). This document is available from the Agency for Health Care Administration at http://ahca.myflorida.com/MCHQ/Emergency_Activities/index.shtml and shall be used as the format for the home health agency's emergency management plan. The plan shall describe how the home health agency establishes and maintains an effective response to emergencies and disasters.

(2) The plan, once completed, will be forwarded electronically for approval to the contact designated by the Department of Health.

(4) Changes in the telephone numbers of those staff who are coordinating the agency's emergency response must be reported to the agency's county office of Emergency Management and to the local County Health Department. For agencies with multiple counties on their license, the changes must be reported to each County Health Department and each county Emergency Management office. The telephone numbers must include numbers where the coordinating staff can be contacted outside of the agency's regular office hours. All home health agencies must report these changes, whether their plan has been previously reviewed or not, as defined in subsection (2), above.

Regulation Definition

400.492(1), F.S., Each patient record for patients who are listed in the registry established pursuant to s. 252.355 shall include a description of how care or services will be continued in the event of an emergency or disaster. The home health agency shall discuss the emergency provisions with the patient and the patient's caregivers, including where and how the patient is to evacuate, procedures for notifying the home health agency in the event that the patient evacuates to a location other than the shelter identified in the patient record, and a list of medications and equipment which must either accompany the patient or will be needed by the patient in the event of an evacuation.

59A-8.027

(8) On admission, each home health agency shall, pursuant to section 252.355, F.S., inform patients and patient caregivers of the special needs registry maintained by their county Emergency Management office. The home health agency must document in the patient's file if the patient plans to evacuate or remain at home; if during the emergency the patient's caregiver can take responsibility for services normally provided by the home health agency; or if the home health agency needs to continue services to the patient. Interpretive Guideline

Do patient records include:

- (1) whether the patient intends to evacuate or remain at home
- (2) if there are family or other caregivers who can take responsibility for services normally provided by HHA or if the HHA needs to continue services
- (3) if patient is listed or will be listed with the special needs registry -- if so, the list of medications & equipment should be included in the record
- (4) if patient lives in an assisted living facility (ALF) or adult family care home (AFCH), was the facility contacted to find out where they will evacuate to
- (5) if continuing services will be needed by the HHA, this should be noted in the record (this includes ALF and AFCH patients)
- (6) If services cannot be continued, document why and the efforts that were made to continue services.

certain situations as specified in section 400.492(3), F.S.

(9) Upon eminent threat of an emergency or disaster the home health agency must contact those patients needing ongoing services and confirm each patient's plan during and immediately following an emergency. The home health agency must also contact every assisted living facility and adult family care home where patients are served to confirm the plans during and immediately following the emergency.

(10) During emergency situations, when there is not a mandatory evacuation order issued by the local Emergency Management agency, some patients may decide not to evacuate and will stay in their homes. The home health agency must establish procedures, prior to the time of an emergency, which will delineate to what extent the agency will continue care during and immediately following an emergency. The agency shall also ascertain which patients remaining at home will need care from the home health agency and which patients have plans to receive care from their family or caregivers. The agency shall designate staff to continue the services specified in the treatment orders to residents in the assisted living facility or adult family care home during and following the emergency. If the assisted living facility or adult family care home does relocate the residents to another assisted living facility or adult family care home within the geographic service area the home health agency is licensed to serve, the agency will continue to provide services to the residents, except in certain situations as specified in section 400.492(3), F.S. If the residents should go to a special needs shelter outside of the geographic service area the home health agency is licensed to serve, the home health agency may provide services to the residents at the shelter pursuant to section 400.492(4), F.S.

The agency must also notify assisted living facilities and adult family care homes where residents are served and make arrangements for nursing personnel to continue essential services, such as insulin and other injections, as ordered in treatment orders to residents. If the agency has assisted living facility, adult family care home or other patients in special needs shelters, then the agency will call the local emergency operation center as soon as possible after the disaster and report on the status of the agency's damage, if any, and the post-disaster availability to continue serving their patients in the special needs shelters and during discharge from the special needs shelters.

(12) When a home health agency is unable to continue services to special needs patients registered under section 252.355, F.S., that patient's record must contain documentation of the efforts made by the home health agency to comply with their emergency management plan in accordance with section 400.492(3), F.S.
