Statewide Provider and Health Plan Claim Dispute Resolution Program

Annual Report for Data Collected in 2016

Pursuant to the provisions of section 408.7057, Florida Statutes (F.S.), the Agency for Health Care Administration (Agency) is required to submit a report to the Governor and the Legislature by February 1st of each year on the status of the Statewide Provider and Health Plan Claim Dispute Resolution Program. Section 408.7057(2)(g)2., F.S., specifically requires the report to enumerate claims dismissed, defaults issued and failures to comply with Agency final orders issued under this section.

Program Description

The Statewide Provider and Health Plan Claim Dispute Resolution Program was established by the 2000 Florida Legislature to provide assistance to contracted and non-contracted providers and managed care organizations for resolution of claim disputes that were not resolved by the provider and the managed care organization. The statute requires the Agency to contract with a resolution organization to timely review and consider claim disputes and submit its recommendation to the Agency. The Agency’s responsibility is to issue a final order adopting the recommendation of the resolution organization.

After adopting the rule necessary to implement the program (59A-12.030, Florida Administrative Code (F.A.C.)), the Agency issued a “Request for Proposals”, and entered into a contract with MAXIMUS, Inc. to review claim disputes. MAXIMUS has been reviewing claim disputes since May 1, 2001.

MAXIMUS operates a toll-free hotline (1-866-763-6395, Option 2) to provide information and dispute application forms to interested parties. The cost of the program is borne by users of the dispute program. The entity that does not prevail in the Agency’s final order must pay the associated review costs. In cases where both parties prevail in part the review costs must be shared. The review costs are determined by MAXIMUS and depend largely on the complexity of the cases submitted.

Initially the program was designed to resolve only disputes between providers, health maintenance organizations (HMOs), prepaid health clinics (PHCs), exclusive provider organizations (EPOs) and prepaid health plans (PHPs). In 2002, the Legislature expanded the program to include other insurers offering major medical expense insurance policies and preferred provider organizations (PPOs). The revision also strengthened the ability of the resolution organization to enforce review timeframes and the timely submission of information requested. The types of claims eligible under the program are further defined in Rule 59A-12.030, F.A.C., consistent with statutory provisions.
