Roll Call and Committee Member Introductions

James (JC) Miller, Chair
Sunshine Laws Overview

Bill Roberts, Deputy General Counsel
Sunshine Laws Overview

• The Sunshine Law is established by Article I, Section 24 of the Florida State Constitution and Chapter 286, Florida Statutes (F.S.).

• A collegial body is subject to the Sunshine Law. Any gathering (this includes email communications) of two or more members of the collegial body to discuss some matter on which foreseeable action will be taken by the collegial body is considered a meeting subject to Sunshine Law requirements. Collegial body includes:
  • Commission or council
  • Advisory board
  • Ad hoc committee
  • Task force
Sunshine Laws Overview

Basic Requirements

• The Sunshine Law imposes three basic requirements:
  1. Meetings of the collegial body must be open to the public
  2. The collegial body must give “reasonable notice” of its meetings
  3. The collegial body must keep minutes of its meetings
Sunshine Laws Overview

Meetings

• A “meeting” of a body subject to the Sunshine Law is broadly defined to include any gathering – formal or informal – during which two or more members of the body discuss the official business of the body. Accordingly, business-related discussions between members of the collegial body may only take place at open, properly-noticed meetings.

• Members may not discuss the business of the collegial body with each other through private phone conversations or e-mail discussions. Members may distribute documents to each other, but they may not discuss or exchange comments on those documents outside of a public meeting.

• In addition, members may discuss business with third parties (i.e., non-members of the body), provided the members do not use a third party as a liaison for business-related communication with other members.
Sunshine Laws Overview

Notice

• “Reasonable notice” of public meetings is required. AHCA follows Section 120.525, F.S., in providing public meeting notice, which dictates the following:

  • Notice of public meetings, hearings, and workshops shall be by publication in the Florida Administrative Register not less than 7 days before the event. The notice shall include a statement of the general subject matter to be considered.

  • An agenda shall be prepared in time to ensure that a copy of the agenda may be received at least 7 days before the event by any person in the state who requests a copy and who pays the reasonable cost of the copy. The agenda shall contain the items to be considered in order of presentation. After the agenda has been made available, a change shall be made only for good cause, as determined by the person designated to preside, and stated in the record. Notification of such change shall be at the earliest practicable time.
Sunshine Laws Overview

Minutes

• Although the Sunshine Law requires the collegial body to record minutes of its meetings, such minutes need not be verbatim transcripts of the proceedings. A summary or notes of the meeting is sufficient.

• It is within the collegial body’s discretion to determine who is responsible for creating the minutes of meetings.
Sunshine Laws Overview

Public Records

• As a general matter, any documents or other materials that are (1) created or received by collegial body members, (2) related to the collegial body’s official business are “public records” which must be made available to the public for inspection and copying.

• These are all considered “public records” if they are used to “perpetuate, communicate, or formalize knowledge.”
  • Reports – circulated drafts of such reports
  • Business related correspondence between collegial body members and AHCA, or any member of the public
  • E-mail between collegial body members and AHCA, or any member of the public
  • Personal notes of collegial body members
Sunshine Laws Overview

Confidential Information

• It is possible that records created by the collegial body will include information that is considered confidential and exempt from the Public Records Law. For example, some information which could conceivably come before the collegial body, such as Medicaid recipient identifying information and medical records, is confidential and exempt.

• In the event that a collegial body document were to include confidential information, the relevant portions of that document would have to be redacted before the document could be released to the public. Collegial body members should also take care during the public meetings not to discuss information derived from such confidential records.
Sunshine Laws Overview

Public Participation

• Section 286.0114, F.S., requires that members of the public be given reasonable opportunity to be heard on a proposition that is before the Council.

• The opportunity to be heard does not apply to acts which are ministerial, for example, the approval of minutes.

• The Workgroup may develop guidelines for public participation such as providing time limits for speakers, having a single representative speak for a group, using “speakers’ cards,” or designating a specific time period for public comment.
Sunshine Laws Overview

Penalties

• Knowing violations of the Sunshine Law are second degree misdemeanors, which carry a maximum sentence of 60 days and up to a $500 fine.

• Public officers who violate the law have committed a non-criminal infraction, punishable by a fine of up to $500.

ESC Roles and Structure

JC Miller, Chair
## ESC Roles and Responsibilities
Implementing Bill 5003 (2020)

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Compliance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify and recommend to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives any <strong>statutory changes</strong> needed to implement the modular replacement to standardize, to the fullest extent possible, the state's healthcare data and business processes.</td>
<td>The Executive Office of the Governor’s working group for interagency information technology integration will advise and inform the ESC on recommendations to standardize, to the fullest extent possible, the state's healthcare data and business processes. Other recommendations may come through the project teams and ESC members.</td>
</tr>
<tr>
<td>Review and <strong>approve any changes to the project's scope, schedule, and budget</strong> which do not conflict with the requirements of subsections (1) and (2) [per the Implementing Bill].</td>
<td>FX will present for ESC review, any changes that impact the FX Strategic Roadmap to ensure the resolution of the fiscal agent contract. These would include any changes in the high-level scope of any module or shifts between modules as well as any schedule shifts or delays. Budget changes will be addressed through the Agency’s Legislative Budget Request and Quarterly Budget Amendment processes.</td>
</tr>
</tbody>
</table>
## ESC Roles and Responsibilities

### Implementing Bill 5003 (2020)

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Compliance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ensure that <strong>adequate resources</strong> are provided throughout all phases of the project.</td>
<td>FX will, prior to each Legislative Session, provide to the ESC, a review of the Strategic Roadmap, Operational Workplan (including FX Organizational Structure), and Spending Plan as well as a high-level timeline of all decisions coming before the ESC for the fiscal year.</td>
</tr>
<tr>
<td>Approve all <strong>major project deliverables</strong>.</td>
<td>FX will develop major project deliverables for inclusion in the solicitation document, which will be provided to the ESC for approval prior to release. The committee will receive updates on major deliverables through periodic FX Program Dashboards.</td>
</tr>
<tr>
<td>Approve all <strong>solicitation-related documents</strong> associated with the replacement of the current Florida Medicaid Management Information System (FMMIS) and Medicaid fiscal agent.</td>
<td>FX will provide a high-level overview of each solicitation for the purchase of modular solutions (including any RFP, RFQ, or ITN) to the ESC for approval prior to the submission to CMS for its approval. Specific solicitations for review will be determined in the first ESC meeting of each fiscal year.</td>
</tr>
</tbody>
</table>
ESC Structure

ESC Membership

- Department of Children and Families
  - Assistant Secretary for Economic and Self Sufficiency Committee Member
  - Assistant Secretary of Child Welfare Committee Member

- Department of Health
  - Department of Health Committee Member

- Department of Financial Services
  - State's Financial Processing Experienced Committee Member

- Agency for Persons with Disabilities
  - Medicare and Medicaid Waiver Experienced Committee Member

- Florida Healthy Kids Corporation
  - FHHC Committee Member

- Department of Management Services
  - Medicaid Experienced Committee Member
  - State Chief Data Officer Committee Member

- Agency for Health Care Administration
  - Secretary or Executive Sponsor Committee Member
  - Medicaid Division Committee Member
  - Health Quality Assurance Committee Member
  - Florida Center for Health Information & Transparency Committee Member
  - Operations Committee Member
  - Chief Information Officer Committee Member
ESC Structure

Meeting Process

• The FX Executive Sponsor chairs the ESC; however, the FX Director is responsible for conducting the meeting.

• The FX Director will update the ESC on matters related to the FX Program’s scope, schedule, and budget.

• The FX Director prepares and distributes the agenda, status reports, and a list of deliverables (as applicable) to ESC members for review prior to the meeting.

• Public comment will be taken prior to voting by ESC members.

• A quorum of the ESC consists of at least 11 members present.

• The ESC action shall be taken by a vote from at least 10 affirmative votes following with the Chair voting on the prevailing side.
ESC Structure

Meeting Schedule

• Quarterly scheduled meetings or as required, at the call of the Chair.

• Meetings scheduled at least two weeks in advance with ESC members and publicly noticed in the Florida Administrative Register at least one week prior to the meeting date.

• Meeting agenda will be provided when the meeting is noticed.
FX Program Overview

Mike Magnuson, FX Director
FX Program Overview

Florida Medicaid

• Florida Medicaid Budget (General Appropriations Act (GAA)) for 2020-21: $29.6 billion
• Florida Federal Medical Assistance Percentages for Fiscal Year (FY) 2020-21: 61.96%
• Fifth largest state for expenditures
• Fourth largest state for enrollment
• 4.1 million Floridians enrolled as of June 2020
• 19% of all Floridians covered
FX Program Overview

Background

• Fiscal Agent contract for FMMIS was set to expire in 2018
• Began Take Over Approach in 2015
  • Operate under the Centers for Medicare & Medicaid Services (CMS) authority (from Advance Planning Document – APD)
    • Medicaid Information Technology Architecture (MITA) requirement
    • 90/10 funding – Design, Development, and Implementation (DDI)
  • Certified
    • 75/25 funding – Operations
• Submitted Invitation to Negotiate for approval October 2015
• CMS denied the Agency’s approach February 2016
FX Program Overview

Background

• CMS issued a rule in 2016 requiring states to follow a modular approach to Medicaid IT acquisition, which reduces system risk compared to a single vendor system

• Modularity means States can take advantage of vendor specialization in niche offerings and that the latest technology and processes can be implemented more quickly and cost effectively

• December 2016 – CMS approved AHCA’s resubmitted strategy beginning with Phase 1
## FX Program Overview

### FX Phases

<table>
<thead>
<tr>
<th>Phase</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>COMPLETE</strong></td>
<td>Fall 2017</td>
</tr>
<tr>
<td>PHASE 1</td>
<td>Procure a <strong>Strategic Enterprise Advisory Services (SEAS) Vendor and an Independent Verification and Validation (IV&amp;V) Vendor</strong></td>
</tr>
<tr>
<td><strong>FALL 2019 – 2022</strong></td>
<td>WE ARE HERE</td>
</tr>
<tr>
<td>PHASE 2</td>
<td>Establish the technical foundation of the modular transformation through the Agency’s procurement of an <strong>Integration Services and Integration Platform (IS/IP) Solution and an Enterprise Data Warehouse (EDW) Solution</strong></td>
</tr>
<tr>
<td><strong>Fall 2019 – 2024</strong></td>
<td>WE ARE HERE</td>
</tr>
<tr>
<td>PHASE 3</td>
<td><strong>Transition the current fiscal agent contract</strong> by December 2024, which include activities to procure modules to transform and improve the FMMIS business processes and replace functionality with solutions that are interoperable with other systems within FX and the larger Florida Health and Human Services agency ecosystem</td>
</tr>
<tr>
<td><strong>Spring 2023 – 2027</strong></td>
<td></td>
</tr>
<tr>
<td>PHASE 4</td>
<td><strong>Acquisition and implementation of modular processing capabilities</strong>, systems and services that upgrade, modernize, and replace the functions currently performed by multiple existing systems</td>
</tr>
</tbody>
</table>
Background

There is no one size fits all reaction to trends in either the general healthcare and technology or the specific MMIS spaces.

Legend

- **Modular**: Replace MMIS with multiple modules
- **Takeover**: Takeover or keep current MMIS, then modularize over time with existing or other vendors
- **Transition**: Transition to new MMIS, then modularize
- **Leaning Modular**: Plans not published, but leaning modular
- **Leaning Takeover / Transition**: Plans not published, but leaning toward takeover or transition, then modularize
- **Plans Not Released**: No plans or planning underway, direction not yet known
- **Pre-Dates New Rules**: Replacement strategy pre-dates new rules, transition recently completed or underway with multiple years remaining on contracts

Note: Based on publicly available information as of June 2, 2017.
FX Program Overview

Guiding Principles

- Enable high-quality and accessible data
- Improve health care outcomes
- Reduce complexity
- Improve integration with partners
- Use evidence-based decision-making
- Improve provider and recipient experiences
- Enable good stewardship of Medicaid funds
- Enable holistic decision-making rather than short-term focus

**Notes:**
- FY 17/18 – FY 20/21 – reflects Appropriated funding
- FY 21/22 – FY 27/28 – reflects estimated funding
- Cumulative Spent includes payments made through June 30, 2020
The Florida Medicaid Enterprise System (MES) are a collection of many systems of different shapes and sizes, each with its own platform, systems architecture, and proprietary data stores. The systems in the MES are islands of processing and information. Data exchange provides the bridge between these systems.

**This state is categorized by the following:**

- Providers, health plans, and AHCA systems primarily submit information to FMMIS through Enterprise Data Exchange and File Transfer Protocol batch transmissions
- Pharmacy Benefits is operated by an outside vendor, Magellan
- The enrollment broker vendor is Automated Health Solutions (AHS). AHS operates both the Choice Counseling call center to enroll recipients in health plans and the Provider Network Verification system to monitor health plan provider networks’ compliance
- Other Florida agencies perform Medicaid processes using replicated Medicaid data; there are limited information exchanges
- Decision Support System (DSS) is the data warehouse that supports analytics, ad hoc inquiry and management and administrative reporting
- The Health Information Exchange system enables provider to provider exchange of information
- There is no 360-degree view of recipient information or alerting of changes in social determinants of health data
## FX Program Overview

### State Interviews – Lessons Learned

<table>
<thead>
<tr>
<th>Key Themes Identified Across States</th>
<th>Implications for Florida</th>
</tr>
</thead>
<tbody>
<tr>
<td>Changed strategic direction and/or procurement timelines for their MMIS/MES modularity strategy after initial plan/approach</td>
<td>All states have had to revise their transformation plans; States highlight a need to remain flexible and responsive to new challenges and opportunities</td>
</tr>
<tr>
<td>Updated strategies due to strained business relationships with legacy system vendors</td>
<td>A couple of states have transitioned from Incremental Modular to “Modular Single-Cutover” approach due to problems integrating with their legacy system poses a similar risk for Florida</td>
</tr>
<tr>
<td>Identified people-centered change management as a key element of overall project success</td>
<td>Reuse is an accelerator that has not been optimized in FX; of states furthest along in modularity, NASPO and reuse are common</td>
</tr>
<tr>
<td>Prioritized EDW/DSS due to current pain points around data and analytics</td>
<td>Organizational change management has been a crucial factor in completing a successful MES transformation</td>
</tr>
<tr>
<td>Transitioned from an Incremental to Modular Single-Cutover approach</td>
<td></td>
</tr>
<tr>
<td>Leveraged National Association of State Procurement Officials (NASPO) for procurements</td>
<td></td>
</tr>
</tbody>
</table>
End of Phase 2: FX Infrastructure

*Procurement release is contingent on funding authority for FY 21/22

Provider DDI previously extended out to JLY '23 for implementation. Now 9 months sooner.
FX Project Overview – Integration Services/Integration Platform (IS/IP)

Scott Ward, CIO, Director of Information Technology & IS/IP Project Executive Sponsor

Angel Garay, IS/IP Project Team Lead
FX Project Overview – IS/IP

Partnerships

Agency for Health Care Administration (AHCA/Agency)
• Provides Information Technology Lead staffing resources to support all aspects of the IS/IP project
• Participates in design sessions and enforce technology standards and processes for the IS/IP project
• Participates as key stakeholders during all major IS/IP project milestones

Integration Services/Integration Platform (IS/IP) Vendor
• IS/IP services are focused on establishing and maintaining interoperability through the use of a central platform
• The Integration Platform will serve as the centralized communication hub and foundational platform upon which all future FX modules will communicate and integrate
## FX Project Overview – IS/IP

### IS/IP Project Workstreams

<table>
<thead>
<tr>
<th>Workstream A</th>
<th>Workstream B</th>
<th>Workstream C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implements the foundational components of the Integration Platform, including: the Enterprise Service Bus (ESB), the Business Rules Engine (BRE) solution, the Managed File Transfer (MFT) solutions, etc.</td>
<td>Implements the Master Data Management (MDM) solution to aggregate information and provides the capability to create the Master Person Index (MPI) and Master Organization Index (MOI)</td>
<td>Implements the Security solution for the authentication and authorization component of the Integration Platform which encompasses capabilities for Single Sign-On (SSO)</td>
</tr>
</tbody>
</table>
Application Lifecycle Management (ALM) – Workstream A

• ALM is a repository and processing methodology to develop and maintain systems.

• The ALM leverages requirements, design details, and validates against previous testing results to help ensure quality and reduce long-term maintenance costs.
• The ESB is a tool that connects modular systems and simplifies components talking to each other.

• The ESB provides the technical connections, data format transformation, and the business policy rules for accessing other services and modules.
FX Project Overview – IS/IP

Business Rules Engine (BRE) – Workstream A

• The Business Rules Engine is what holds rules to permit appropriate actions.

• The Business Rules Engine holds internal security requirements, federal and state legal requirements, and business requirements.
FX Project Overview – IS/IP

Managed File Transfer (MFT) – Workstream A

• MFT is the system that handles incoming data files and directs the files to the correct groups, roles, or individuals.

• MFT is the electronic version of airport luggage handling. From your flight to your connection or your final destination, your luggage is identified and routed to exactly where it needs to be.
Master Person Index (MPI) and Master Organizational Index (MOI) – Workstream B

- MPI/MOI processes person or organization record requests to find and present a list of matches from across Health and Human Services (HHS) agencies, greatly assisting with Data Interoperability.

**Master Person Index**
- Identify duplicate master records within systems.
- Identify common recipients across organizations & systems
- Reduce resources spent on manual identity matching processing
- Share event notifications about a person to all systems and records
- Use to reduce or consolidate duplicate communications

**Master Organization Index**
- Same as person index for non-person organizations or facilities
- Reduce payments to unauthorized providers
- Reduce suspended providers from applying to provide services as a new provider
FX Project Overview – IS/IP

Single Sign-On (SSO) – Workstream C

- SSO is a service that simplifies user access to multiple systems by managing authentication of users across multiple systems.

- Think of SSO like logging in to Google one time and having access to your mail, calendar, and even shopping and video websites, based on your username and password.
