Section 409.909(5) of the Florida Statutes establishes the Graduate Medical Education Startup Bonus Program to provide resources for the education and training of physicians in specialties in a supply-and-demand deficit. Under this law, the Agency for Health Care Administration (Agency) will allocate a $100,000 startup bonus for each resident position that is in a qualifying specialty or subspecialty.

To participate in the Graduate Medical Education Startup Bonus Program during State Fiscal Year (SFY) 2019-20 (July 1 through June 30), a hospital must have received approval on or after March 2, 2019 through March 1, 2020, and must provide verification of that approval for new resident positions in the qualifying specialties or subspecialties listed below within an established accredited training program, or a newly created accredited training program.

Please review the INSTRUCTIONS provided below to properly complete the form. Failure to properly complete the form may result in an inadequate or zero count of the number of full-time equivalent residents in your facility and the possibility of the loss of payments from this program. If you have any questions regarding this form, you may contact Eileen Harris by phone at (850) 412-4131 or by email at Eileen.Harris@ahca.myflorida.com.

QUALIFYING SPECIALTIES OR SUBSPECIALTIES (Adult or Pediatric)

- Allergy or Immunology
- Anesthesiology
- Cardiology
- Endocrinology
- Family Medicine
- General Surgery
- Hematology
- Infectious Diseases
- Nephrology
- Neurology
- Obstetrics/Gynecology
- Oncology
- Ophthalmology
- Orthopedic Surgery
- Otolaryngology
- Psychiatry
- Pulmonary
- Radiology
- Rheumatology
- Thoracic Surgery
- Urology

DEFINITIONS APPLICABLE TO THE INPUT FORM:

"Qualifying institution" - means a Federally Qualified Health Center holding an Accreditation Council for Graduate Medical Education institutional accreditation.

"Full-time equivalent" or "FTE" - a resident who is in his or her residency period, with the initial residency period defined as the minimum number of years of training required before the resident may become eligible for board certification by the American Osteopathic Association Bureau of Osteopathic Specialists or the American Board of Medical Specialties in the specialty in which he or she first began training, not to exceed 5 years.

"Resident" - a medical intern, fellow, or resident enrolled in a program accredited by the Accreditation Council for Graduate Medical Education, the American Association of Colleges of Osteopathic Medicine, or the American Osteopathic Association.
INSTRUCTIONS
SFY 2019-20 Graduate Medical Education (GME)
Startup Bonus Program

In order to be considered for participation in the Graduate Medical Education
Startup Program, please complete the Graduate Medical Education Startup Bonus
Program Application and submit it to the Agency for Health Care Administration Agency) via the email
instructions below by 5:00 PM EST March 2, 2020.

APPLICATION SUBMISSION INSTRUCTIONS:

Please submit the completed Graduate Medical Education Startup Bonus Application in Excel only. All supporting
documentation must be sent in PDF form. Application submissions should be emailed to
Eileen.Harris@ahca.myflorida.com or LIPProvidersReports@ahca.myflorida.com.

The Graduate Medical Education Startup Bonus Program is authorized under Section 409.909(5) of the Florida
Statutes, and Specific Appropriation 202 – Graduate Medical Education of the General Appropriations Act for SFY
2019-20. Copies of these Laws are provided in Appendix A of these instructions.

SECTION A - Input the following information into Section A of the application

HOSPITAL NAME: Input hospital’s name

HOSPITAL MEDICAID PROVIDER ID NUMBER: Input the hospital’s Medicaid provider ID number

HOSPITAL COUNTY: Input the county in which the hospital resides

HOSPITAL CONTACT PERSON FIRST NAME: Input the first name of the individual that can answer any questions regarding the
information contained in the application

HOSPITAL CONTACT PERSON LAST NAME: Input the last name of the individual that can answer any questions regarding the
information contained in the application

HOSPITAL CONTACT PERSON EMAIL ADDRESS: Input the email address of the individual that can answer any questions regarding the
information contained in the application

HOSPITAL CONTACT PERSON PHONE: Input the phone number of the individual that can answer any questions regarding the
information contained in the application

DATE THIS APPLICATION WAS COMPLETED: Input the date that the application was completed

SECTION B - Below you will find detailed instructions on how to input the number of new resident positions that
were approved on or after March 2, 2019 through March 1, 2020. The new resident positions must be within the
specialties or subspecialties that are listed above in the General section of these instructions. If the resident
positions are not in the specialties or subspecialties identified in the General section of these instructions, they will
not be counted.

Each row on the application is based on Date of Approval. Therefore, if you have multiple dates of approval for
positions within the same specialty or subspecialty, please input them on separate rows of the application.

EXAMPLE: Hospital A received approval for seven new resident positions in the Allergy specialty on August 12, 2018.
Hospital A received approval for an additional two new resident positions in the Allergy specialty on January 15, 2019. The
entry would be as follows:
Appendix A

SFY 2019-20 General Appropriations Act - SB 2500

202  SPECIAL CATEGORIES
GRADUATE MEDICAL EDUCATION
FROM GENERAL REVENUE FUND . . . .  37,998,140
FROM GRANTS AND DONATIONS TRUST FUND . . . . . . . . . . . . . . . .  57,422,823
FROM MEDICAL CARE TRUST FUND . . . .  151,272,323

From the funds in Specific Appropriation 202, $37,998,140 from the General Revenue Fund, $38,317,500 from the Grants and Donations Trust Fund, and $120,084,360 from the Medical Care Trust Fund are provided to fund the Statewide Medicaid Residency Program and the Graduate Medical Education Startup Bonus Program. Of these funds, $97,300,000 shall be used to fund the Statewide Medicaid Residency Program in accordance with section 409.909 (3), Florida Statutes. Hospitals owned or operated by a controlling interest that has had any license issued under ch. 400, F.S., revoked pursuant to s. 408.815(1)(b), F.S., between January 1, 2017 and July 1, 2020, are not eligible for funds in specific appropriation 202. Of these funds, $42,262,976 shall be distributed to the two hospitals with the largest number of graduate medical residents in statewide supply/demand deficit. The remaining funds shall be used to fund the Graduate Medical Education Startup Bonus Program in accordance with section 409.909 (5), Florida Statutes, and are provided for the following physician specialties and subspecialties, both adult and pediatric, that are in statewide supply/demand deficit: allergy or immunology; anesthesiology; cardiology; endocrinology; family medicine; general surgery; hematology; oncology; infectious diseases; nephrology; neurology; obstetrics/gynecology; ophthalmology; orthopedic surgery; otorhinolaryngology; psychiatry; pulmonary; radiology; hematology; thoracic surgery; and urology. Funding for the Graduate Medical Education Startup Bonus Program is contingent on the nonfederal share being provided through intergovernmental transfers in the Grants and Donation Trust Fund.
(5) The Graduate Medical Education Startup Bonus Program is established to provide resources for the education and training of physicians in specialties which are in a statewide supply-and-demand deficit. Hospitals and qualifying institutions as defined in paragraph (2)(c) eligible for participation in subsection (1) are eligible to participate in the Graduate Medical Education Startup Bonus Program established under this subsection. Notwithstanding subsection (4) or an FTE’s residency period, and in any state fiscal year in which funds are appropriated for the startup bonus program, the agency shall allocate a $100,000 startup bonus for each newly created resident position that is authorized by the Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution in an initial or established accredited training program that is in a physician specialty in statewide supply-and-demand deficit. In any year in which funding is not sufficient to provide $100,000 for each newly created resident position, funding shall be reduced pro rata across all newly created resident positions in physician specialties in statewide supply-and-demand deficit.

(a) Hospitals and qualifying institutions as defined in paragraph (2)(c) applying for a startup bonus must submit to the agency by March 1 their Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution approval validating the new resident positions approved on or after March 2 of the prior fiscal year through March 1 of the current fiscal year for the physician specialties identified in a statewide supply-and-demand deficit as provided in the current fiscal year’s General Appropriations Act. An applicant hospital or qualifying institution as defined in paragraph (2)(c) may validate a change in the number of residents by comparing the number in the prior period Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution approval to the number in the current year.

(b) Any unobligated startup bonus funds on April 15 of each fiscal year shall be proportionally allocated to hospitals and to qualifying institutions as defined in paragraph (2)(c) participating under subsection (3) for existing FTE residents in the physician specialties in statewide supply-and-demand deficit. This nonrecurring allocation shall be in addition to the funds allocated in subsection (4). Notwithstanding subsection (4), the allocation under this subsection may not exceed $100,000 per FTE resident.

(c) For purposes of this subsection, physician specialties and subspecialties, both adult and pediatric, in statewide supply-and-demand deficit are those identified in the General Appropriations Act.

(d) The agency shall distribute all funds authorized under the Graduate Medical Education Startup Bonus Program on or before the final business day of the fourth quarter of a state fiscal year.

(6) Beginning in the 2015-2016 state fiscal year, the agency shall reconcile each participating hospital’s total number of FTE residents calculated for the state fiscal year 2 years before with its most recently available Medicare cost reports covering the same time period. Reconciled FTE counts shall be prorated according to the portion of the state fiscal year covered by a Medicare cost report. Using the same definitions, methodology, and payment schedule specified in this section, the reconciliation shall apply any differences in annual allocations calculated under subsection (4) to the current year’s annual allocations.

(7) The agency may adopt rules to administer this section.

History.—s. 5, ch. 2013-48; s. 2, ch. 2014-57; s. 8, ch. 2015-225; s. 20, ch. 2016-65; s. 11, ch. 2017-129.
