FLORIDA MEDICAID

A Division of the Agency for Health Care Administration

Florida Medicaid Health Care Alert

March 13, 2020

Provider Type(s): All

Update: Medicaid Coverage of Coronavirus Laboratory Testing

The Agency for Health Care Administration (Agency) is committed to ensuring that Medicaid recipients diagnosed with the 2019 novel coronavirus (COVID-19) receive all the care needed to address their symptoms. **Florida Medicaid covers and will cover all medically necessary services required to facilitate testing and treatment of COVID-19.** The purpose of this alert is to provide updated guidance related Florida Medicaid coverage of laboratory testing.

Laboratory Test Coverage

Florida Medicaid covers testing for COVID-19 consistent with the guidelines established by the Centers for Disease Control and Prevention (CDC).

State Laboratories

- The Florida Department of Health (Department) is supporting the public health response by covering priority laboratory testing through the state laboratories.
- There is no cost to providers for the laboratory test.
- Providers should work with their local County Health Department for submission of priority lab specimens to the closest state laboratory for testing, according to the Department's [criteria](#) for at risk individuals only.
- For Florida Medicaid recipients, the Agency covers the cost of specimen collection.

Independent Laboratories

- [Laboratory Corporation of America \(LabCorp\)](#) and [Quest Diagnostics \(Quest\)](#) have initiated testing services for COVID-19 on specimens received from providers for Persons Under Investigation, utilizing CDC risk [criteria](#). These laboratories are not collecting specimens directly. Providers should **not** send patients to any LabCorp or Quest location to have a

specimen collected. Instead, specimens are to be collected at healthcare facilities, such as hospitals and physician offices, and sent to Quest or LabCorp using standard procedures.

- Florida Medicaid already covers the physician visit or hospital stay where the specimen is collected.
- Beginning March 16, 2020, Florida Medicaid will cover procedure codes U0001 and U0002 for any at-risk Florida Medicaid recipient consistent with the [CDC guidelines](#), for dates of service on or after February 4, 2020.
- Florida Medicaid fee-for-service will reimburse \$35.92 for procedure code U0001 and \$51.33 for procedure code U0002. Providers should work with Medicaid health plans to determine the reimbursement rates for these procedure codes for Medicaid recipients enrolled in plans.
- As specified by CMS, these type of laboratory assays that have been authorized for emergency use by the Food and Drug Administration remain subject to CLIA regulations.

Additional Information

- For more information, visit the Department's COVID-19 website: www.flhealth.gov/COVID-19
- If you have fee-for-service coverage questions, please contact the Florida Medicaid Helpline at 1-877-254-1055.
- If you have health plan coverage questions, please contact the health plan directly.

The Agency will continue to provide more information as it becomes available.
