Preventive Dental Services	36%	36%	36%
Dental Treatment Services	14%	15%	13%

*These rates are biased due to the plan having ED visit data for only part of the year. For the measure per member months, only member months for that part of the year are included in the calculations.

**The plan only had ED visit data for part of the year and had a denominator less than 30 for these measures, thus not having reportable rates.
