Dear Medicaid Managed Care Plan:

Re: Mobile Vision Providers

The purpose of this letter is to inform all Managed Medical Assistance (MMA) plans that they may contract with mobile vision providers for optometric services.

The Agency for Health Care Administration (Agency) has determined it is appropriate for MMA plans to contract with mobile vision providers directly and that it is not necessary for these providers to be contracted with County Health Departments (CHD), Federally Qualified Health Centers (FQHC) or mobile clinics affiliated with academic medical institutions accredited by the Liaison Committee on Medical Education (LCME) or the Commission on Osteopathic College Accreditation (COCA).

Managed Medical Assistance plans must ensure that their contracted providers comply with all requirements of the Visual Services and Optometric Services Coverage and Limitations Handbooks.

Sincerely,

A handwritten signature in blue ink that reads 'Shevaun Harris'.

Shevaun Harris, Chief  
Bureau of Medicaid Services

SH/sb
