Dear Medicaid Managed Care Plan:

Re: Substitution Codes

The purpose of this letter is to remind you that there are additional behavioral health codes in your contract that can be used as downward substitutions for services in the Florida Medicaid Community Behavioral Health Services Coverage and Limitations Handbook. Managed care plan electing to offer downward substitution services should make information available to plan enrollees and providers on these additional service options.

Enrollees must consent to the use of a substitute service instead of a Florida Medicaid Community Behavioral Health Services Coverage and Limitations Handbook service. Providers must also document that using a substitute service over a Florida Medicaid Community Behavioral Health Services Coverage and Limitations Handbook service is clinically warranted for the treatment of the enrollee's behavioral health condition.

Managed care plans must request approval from the Agency prior to implementing substitution codes. The behavioral health substitution codes in the contract are listed below. Please identify the services your plan is interested in providing, and submit a request with the proposed prior authorization protocols and clinical practice guidelines to your Agency contract manager to provide the selected downward substitution services.

HCPCS Or Revenue Code	HCPCS Level II or Revenue Code Service Description
0912	Psychiatric/Psychological Svcs: Partial Hosp - less intensive
1001	Residential treatment-psychiatric
H0038	Self-help/peer services; per 15 minutes
