COVID-19 Hospital Vaccine Administration

The Florida Department of Health and Agency for Health Care Administration would like to express our appreciation for your partnership in helping Floridians across our state receive the COVID-19 vaccination.

Just as we know you will vaccinate all of your staff who wish to be vaccinated, regardless if they live outside out of your service area, please use the same approach with other members of the healthcare community, individuals 65 years and older, patients at risk in your hospital, and others whom meet the requirements of [Executive Order 20-315](#). As long as an individual meets the requirements detailed in the Executive Order and will be available to receive the second dose they should be vaccinated.

The Agency for Health Care Administration is committed to better health care for all Floridians. The Agency administers Florida's Medicaid program, licenses and regulates more than 44,000 health care facilities and 53 health plans, and publishes health care data and statistics at www.FloridaHealthFinder.gov. Additional information about Agency initiatives is available via [Facebook \(AHCAFlorida\)](#), [Twitter \(@AHCA_FL\)](#) and [YouTube \(/AHCAFlorida\)](#).
