COVID Isolation Facility Update

The Agency established COVID isolation facilities to support long-term care providers and help with hospital decompression during the COVID-19 public health emergency. We are grateful for the critical role these facilities have played in the State's battle against COVID-19.

Based on the dramatic decrease in positivity among residents and staff in long-term care facilities, the significant reduction in the number of individuals hospitalized for COVID-19, and increased hospital capacity, the Agency has initiated a process to phase out the role of and to end the agreements with the State-supported COVID-19 isolation facilities.

Please note: With the exception of the Miami Care Center, these facilities may choose to continue to accept COVID positive patients as long as they follow appropriate isolation and infection control protocols **adhering to the Centers for Disease Control and Prevention recommendations**. Please work directly with the facilities to determine if they will continue to accept COVID positive patients once the contract with the Agency ends.

Effective September 18, 2020, the following facilities will no longer be admitting COVID positive patients under a contract with the Agency:

- Lake View Care Center
- Summit/Ybor City Center for Rehabilitation and Healing
- Avante at Melbourne
