

**Hospital Available Beds Instructions:** *It is important not to enter any beds twice. For example, your Adult Medical Surgical and Isolation beds should not be counted as part of your General Acute Care beds.*

*Census - The number of patients currently admitted in the bed type.*

*Available - The number of unoccupied beds for the bed type that are staffed and ready for use.*

Field Name	Licensed Beds	Current Bed Census	Available Beds
Total Beds	Imported from licensure data	Calculated sum of all bed types below (acute and other)	Calculated sum of all bed types below (acute and other)
