Long Term Care Facilities Add'l Info - 1	Descriptions
Current number of residents in your facility who are currently-positive for COVID-19:	Total number of current residents onsite in your facility who are currently COVID-19 positive based on test results. Exclude previous positives who are now cleared (based on test-based or symptom-based strategy). Do not include persons who were previously positive and have recovered.
Total number of residents tested in the last two weeks.	Total number of current residents onsite in your facility who were tested in the last two weeks for COVID-19.
Number of former residents (discharged or transferred) who tested positive for COVID-19:	Total number of residents who were COVID-19 positive while in your facility but were temporarily transferred or discharged from your facility because of COVID-19. Include transfers to hospitals or other health care facilities. Do not include transferred residents once they are cleared (based on a test-based or symptom-based strategy).
For the previous day (12:00am to 11:59pm), total residents with confirmed or suspected COVID-19 that were transferred out of your facility to a hospital or health care facility:	Number of COVID + or suspected residents transferred out of the facility yesterday.
Does your facility have a designated, distinct COVID- 19 Positive Wing or Building?	Answer Yes if your entire facility is designated to serve COVID-19 Positive residents, or if you have a devoted wing or floor physically separated from other areas, AND if you have dedicated staff who solely serve the COVID-19 positive residents.
Is the facility now COVID-19 Free – no positive residents or staff are in facility / affected areas have been decontaminated:	"COVID-19 Free" means: After having a COVID positive resident or staff person, there are now no positive persons in the facility. No positives also refers to any residents or staff who were positive but are now negative in accordance with public health guidelines (e.g.: two negative tests separated by 24 hours or staff who are exhibiting no symptoms and clear to return to work based on CDC guidelines using time/symptom-based strategies.) Sanitation measures have been completed to decontaminate any affected areas in the facility. COVID Free does not immediately apply solely because all positive residents are moved out of the facility for temporary care or resident safety.
Date the facility became COVID-19 Free:	The date the last action was taken to make the facility COVID-19 free (see definition of COVID-19 Free above).

Number of staff who have tested positive for COVID-19:	Number of current employees who are currently positive for COVID-19. Exclude any staff who have recovered based on a test-based or symptom-based strategy.
Total number of all employees (i.e. clinical, housekeeping, nutrition, maintenance, administration, and contract):	Number of all current employees. Include all positions, all shifts, including contract.
NH/ALF: Date of next planned shipment to Curative:	Nursing homes and ALFs only: Enter the date you plan to send test kits to a Curative Lab for processing.
