Re: Performance Measures Reporting

Managed care plans are required to collect statewide data on enrollee performance measures, as defined by the Agency and as specified in the SMMC Performance Measure Tables, the Managed Care Plan Report Guide and Performance Measures Specifications Manual. (Attachment II, Section VII.B.)¹ The purpose of this policy transmittal is to advise managed care plans of revisions to the reporting requirements for performance measures.

An updated performance measures report template has been posted to the Statewide Medicaid Managed Care Report Guide Web page with the SMMC Report Guide effective July 1, 2016. This template must be used by all managed care plans to report on Agency-defined and Adult and Child Core Set measures that are required for July 1, 2016 reporting. Managed care plans must report HEDIS measures in the Interactive Data Submission System (IDSS) file in an Excel file format.

For the "Plan All-Cause Readmissions" performance measure, managed care plans must only report unadjusted rates for this measure (columns C, D, and E) because no standardized risk adjustment tables for Medicaid have been developed.

If you have any questions, please contact your Agency contract manager at (850) 412-4004.

¹ The citation for the CMS Plan contract is Attachment I, Section VII.B.
